Psychoanalytic Assessment Applications for Different Settings Jed A. Yalof, Anthony D. Bram, 2020-12-29 In this edited book expert assessors illustrate through case examples how they apply psychoanalytic theory to different clinical settings. These settings include private practice, neuropsychological, medical, forensic, personnel, custody, school, and psychiatric residential. Psychoanalytic Assessment Applications for Different Settings allows the reader to track the assessor's work from start to finish. Each chapter presents a description of the clinical setting in which the assessment occurred, a detailed review of the referral and patient history, test selection and test findings with supporting data drawn from self-report and cognitive and personality performance based measures, psychiatric and psychodynamic diagnoses, implications and recommendations, discussion of the feedback process, and assessor self-reflections on the case. Throughout the book, psychodynamic concepts are used to help understand the test data. The authors are experts in the psychodynamic assessment of clients in private practice, educational, medical, neuropsychological, and forensic settings. The findings are derived from methods particular to each setting with supporting data highlighted and woven throughout the interpretive process. Students, educators, practitioners, and the professionals who collaborate with assessors will benefit from this book's offerings. The University We Need Warren

Treadgold, 2018-07-10 Though many people know that American universities now offer an inadequate and incoherent education from a leftist viewpoint that excludes moderate and conservative ideas few people understand how much this matters how it happened how bad it is or what can be done about it In *The University We Need* Professor Warren Treadgold shows the crucial role of universities in American culture and politics the causes of their decline in administrative bloat and inept academic hiring the effects of the decline on teaching and research and some possible ways of reversing the downward trend He explains that one suggested reform the abolition of tenure would further increase the power of administrators further decrease the quality of professors and make universities even more doctrinaire and intolerant Instead he proposes federal legislation to monitor the quality and honesty of professors and to limit spending on administration to no more than 20 percent of university budgets Harvard now spends 40 percent Finally he offers a specific proposal for the founding of a new leading university that could seriously challenge the dominance of Harvard Princeton Yale Stanford and Berkeley and attract conservative and moderate faculty and students now isolated in universities and colleges that are either leftist or mediocre While agreeing with conservative critics that universities are in severe crisis Treadgold believes that the universities problems largely transcend ideology and have grown worse partly because disputants on both sides of the academic debate have misunderstood the methods and goals of higher education
