Nmmu Applicants For 2016:

Achieving Nelson Mandela University? Sibongile Muthwa, Denver A. Webb, 2024-08-20 South Africa's higher education sector is rooted in the country's divided past. A significant State driven restructuring from around 1997 to 2005 resulted in what is largely the current configuration of public universities. But just over two decades later for a variety of reasons the higher education sector in South Africa appears beset with numerous challenges. Nelson Mandela University is one of the public universities that emerged from the restructuring process. The university is in an ongoing state of evolution of becoming. It developed out of the amalgamation of the University of Port Elizabeth, Port Elizabeth Technikon and incorporation of the Port Elizabeth campus of Vista University as Nelson Mandela Metropolitan University in 2005. In 2017 it was renamed Nelson Mandela University after the world renowned statesman rather than the metropolitan area in which the university is primarily located. The renaming was conceptualised as more than a marketing opportunity to rebrand the university but as an opportunity to reorientate the university to reposition Nelson Mandela University as an engaged and socially embedded university in the service of society striving to be the academic expression of the values and ethos of its iconic namesake. Endeavouring to be something greater and different from the norm imbues its strategy, public statements and practices. The determination to achieve Mandela University serves or is intended to serve as both an organising principle and a lodestar. A cross section of writers from different backgrounds situates Nelson Mandela University within the contemporary historical moment from which it emerged and examines its subsequent evolution. While Nelson Mandela University has performed the usual work expected of any university it has also sought to turn the university outwards to achieve a higher purpose framing itself as a values based university on a journey to become something else. In *Achieving Nelson Mandela University* the university attempts to give an account of itself. The book is an intellectual and scholarly reflection on where the university has come from and where it is seeking to go. *Proceedings of Tenth International Congress on Information and Communication Technology* Xin-She Yang, Simon Sherratt, Nilanjan Dey, Amit Joshi, 2025-09-30. This book gathers selected high quality research papers presented at the Tenth International Congress on Information and Communication Technology ICICT 2025 held in London on February 18-21, 2025. It discusses emerging topics pertaining to information and communication technology (ICT) for managerial applications, e-governance, e-agriculture, e-education and computing technologies, the Internet of Things (IoT) and e-mining. Written by respected experts and researchers working on ICT, the book offers an asset for young researchers involved in advanced studies. The book is presented in ten volumes.

ICEL 2018 13th International Conference on e-Learning Professor Eunice Ivala, 2018-07-05 **Proceedings of the Tenth International Symposium on Human Aspects of Information Security & Assurance (HAISA 2016)** Nathan Clarke, Steven Furnell, 2016. The Human Aspects of Information Security and Assurance HAISA symposium specifically addresses information security issues that relate to people. It concerns the methods that inform and guide users.

understanding of security and the technologies that can benefit and support them in achieving protection This book represents the proceedings from the 2016 event which was held in Frankfurt Germany A total of 27 reviewed papers are included spanning a range of topics including the communication of risks to end users user centred security in system development and technology impacts upon personal privacy All of the papers were subject to double blind peer review with each being reviewed by at least two members of the international programme committee **Catalysis** ,2016-02-19

Industrial and academic scientists face increasing challenges to find cost effective and environmentally sound catalysts for a variety of applications This volume provides a balanced and in depth review of the modern approaches to some of these challenges covering major areas such as catalysts for green catalytic processes research and development of hydrocracking catalysts using nanoclusters as catalysts and preparation of foams **Report of the FIFTH GLOBAL FISHERIES**
