Claim:
There are different aquatic systems with diverse organisms.

Evidence	Reasoning/Justification
Aquatic ecosystems have abiotic - temp, light, salinity, depth	Different organisms can tolerate different factors
Some organisms prefer fresh water vs. saltwater. Bull sharks + manatees tolerate both	Bull sharks and manatees are very different, but tolerate same conditions
Depth reduces light and increases pressure. Organisms deal with this differently.	Many types of adaptations exist to survive in these conditions
The geography of an aquatic environment can determine the life forms present.	Continental shelf gets lots of light, so there's many living things. Not so in the abyss.
Photosynthesis takes place in the neritic zone.	It is the most productive area of the ocean. Plankton are base of food chain.
Metabolism is affected by temp. Many species are cold-blooded.	Organisms can migrate or must have adaptations to survive.

Hollywood or History? Starlynn R. Nance, 2022-05-01

Teaching with film is not a new approach in the social studies classroom Different publications such as Hollywood or History

have bridged the gap with challenges attached to using historical film and engage students through inquiry not entertainment To continue with the Hollywood or History strategy this text uses television shows sitcoms to bring issue centered curriculum to middle and high school classrooms By exploring issues in specific episodes students can learn the history behind an issue relate it to their lives and develop an informed decision associated with the issue The College Career and Civic Life C3 framework is an integral part to the exploration of issue centered curriculum In each chapter the students will work through the four dimensions and develop critical thinking reading and writing skills My hope is that this text can play a small role in walking practicing teachers through the C3 framework while allowing students to learn about issues that affect society and the communities where they live

350 Questions for the Situational Judgement Test Sarah Craig, Giles Dixon, Alice Pitt, Isobel Platt, Catherine Sproson, Andrew Viggars, Eileen Wedge, 2015-12-23 This book presents over 350 ranking and multiple choice questions arranged by subject groups aligned with the domains of the SJT examination and designed specifically to explore the readiness of candidates to face the scenarios that they will encounter as a junior doctor A clear discussion of how the correct answer was reached and other options ruled out for every question is given at the end of each chapter making this book an excellent learning aid through all stages of undergraduate studies and particularly during revision for the SJT examination
