Using a dictionary

Most beginning language learners consider the dictionary as the ultimate resource for reading, writing, and speaking. While it is true that the dictionary is a useful tool that can provide valuable information about vocabulary, using the dictionary correctly requires that you understand the elements of each entry.

If you glance at a Spanish-English dictionary, you will notice that its format is similar to that of an English dictionary. The word is listed first, usually followed by its pronunciation. Then come the definitions, organized by parts of speech. Sometimes the most frequently used definitions are listed first.

To find the best word for your needs, you should refer to the abbreviations and the explanatory notes that appear with the entries. For example, imagine that you are writing about your position. You want to write, "I want to buy a new racket for my match tomorrow," but you don't know the Spanish word for "racket." In the dictionary, you may find an entry like this:

racket *v. l. alboroto. l. ruidos (fem.)*

l. corresponds to **alboroto** (noise). Then, the first word you see is **alboroto**. When you look that word up, you find that definition of **alboroto** is noise or racket, so **alboroto** is probably not the word you're looking for. The second word is **ruidos**, followed by the abbreviation *dep.*, which stands for **deportes**. This indicates that the word **ruidos** is the best choice for your needs.

Be sure to include activities that will appeal to singles as well as couples and families; you should include activities for all age groups and for both men and women.

Listening for the gist

Listening for the general idea, or gist, can help you follow what someone is saying even if you can't hear or understand some of the words. When you listen for the gist, you simply try to capture the meaning of what you hear without focusing on individual words.

- To help you practice the strategy, go to [Unit 1](#) in a computer module or if time permits, at least a brief summary of what you hear.
