Nothing Short Of A Miracle:

Kenosis and the Question of Political Theology Saitya Brata Das, 2025-02-23 The book based on the concept of kenosis explores the thought of a political theology as deconstruction of sovereignty It takes up the most difficult question of God's revelation as the very revelation of love It connects the theological inquiry to ecology emphasizing humanity's redemption as intertwined with nature's salvation It also critiques modern metaphysical views that treat nature as mere resource urging a recognition of our essential interconnectedness with all beings By taking Paul's conception of kenosis seriously this book aims to dismantle existing sovereign powers and challenge the notion of human supremacy in global politics It seeks to reintegrate transcendence into contemporary debates on post secularism and religion while addressing the urgent ecological crises we face An interesting read for upper level undergraduates graduate students scholars and other intellectuals interested in philosophy of religion and philosophical theology **Current Opinion** Edward Jewitt Wheeler, Frank Crane, 1908
