Nye The Political Life Of Aneurin Bevan:

NYE Nick Thomas-Symonds, 2014-12-18 Aneurin Nye Bevan was one of the pivotal Labour figures of the post war era As Minister for Health in Attlee's government his role in the foundation of the NHS the world's largest publically funded health service and the centre piece of the Opening Ceremony of the 2012 London Olympics changed the face of British society forever The son of a coal miner from South Wales Bevan was a life long champion of social justice and the rights of working people and became one of the leading proponents of Socialist thought in Britain He was also vehement in his dislike of the Conservative Party going so far as to oppose the wartime coalition between Attlee and Churchill Whilst he admired the Marxist critique of capitalism and felt that the drive for private consumer affluence in the 1950s flew in the face of social good he was certainly no communist He was a passionate believer in public ownership but had a complex relationship with the unions which may have prevented him from becoming party leader In this book acclaimed author Nicklaus Thomas Symonds provides the first full life biography of Bevan in over two decades from his birth in Tredegar in the South Wales Valleys in 1897 to his death from stomach cancer at the age of 62 in 1960 Thomas Symonds considers not just Bevan's political career but also his upbringing his career in local government in Wales and his relationship with his wife and fellow Labour MP Jennie Lee Drawing on first hand interviews as well as recently released sources he provides a unique portrait of one of the great British statesmen of the twentieth century *Narratives of Delusion in the Political Practice of the Labour Left 1931-1945* Roger Spalding, 2018-04-18 This book sets out a challenging re interpretation of the politics of Labour's left wing It shows how the Left developed a range of simplistic self sustaining narratives rather than supported analyses to guide its actions in the aftermath of the political crisis of 1931 This approach it is argued persisted down to the opening years of the present century its employment in part explaining the decline of the pre Corbyn Left The narratives developed by the Left reflected a belief in the existence of a working class waiting to be led in a radical direction The leading figures of the Left often had limited direct contact with working people but within their narratives the responses of their target audience were predictable and automatic The Left created an idealised working class that behaved as the Left wished In addition the book questions the popular view often enhanced by biographers of many of these Labour Left leaders **The Ministry of Nostalgia** Owen Hatherley, 2016-02-09 Why should we have to Keep Calm and Carry On In this brilliant polemical rampage Owen Hatherley shows how our past is being resold in order to defend the indefensible From the marketing of a make do and mend aesthetic to the growing nostalgia for a utopian past that never existed a cultural distraction scam prevents people grasping the truth of their condition The Ministry of Nostalgia explodes the creation of a false history a rewriting of the austerity of the 1940s and 1950s which saw the development of a welfare state while the nation crawled out of the devastations of war This period has been recast to explain and offer consolation for the violence of neoliberalism an ideology dedicated to the privatisation of our common wealth In coruscating prose with subjects ranging from Ken Loach's

documentaries Turner Prize shortlisted video art London vernacular architecture and Jamie Oliver's cooking Hatherley issues a passionate challenge to the injunction to keep calm and carry on

The Chronology of Revolution Ben Harker, 2020
Based on a decade of research in over twenty archives The Chronology of Revolution is an accessible and richly detailed work of historical and cultural analysis that fixes its gaze on the legacy of the Communist Party of Great Britain Communists anticipated that the party formed in the world's first industrialised nation would be in the vanguard of world revolution Instead the party never came close to matching the political power of the British Labour Party or continental Communist parties in France or Italy and dissolved itself in 1991 In this book Ben Harker draws on the ideas of Antonio Gramsci to argue that the CPGB despite having great influence over British culture never fully appreciated the importance of civil society to its political strength Analysing members' efforts in fields such as science journalism the arts broadcasting and education The Chronology of Revolution offers an alternative radical history of Britain between 1920 and 1991 which draws out important lessons for the contemporary Left

Narratives of Injury Rosalyn Buckland, 2024-11-29 Narratives of Injury redescribes the history of injury from the perspective of those most at risk rather than medical professionals and other outsiders Refocusing on the first hand perspectives found in literary texts and journalistic accounts it uncovers a self-conscious tradition of mining stories running through nineteenth century writing The book examines both non-canonical authors and famous novelists including Charles Dickens Joseph Skipsey G A Henty E H Burnett George Eliot Edward Tirebuck H G Wells and D H Lawrence Their narratives revise our understanding both of injury and of the radical potential of fiction Sudden physical injuries have often been configured as fundamentally unknowable by the victims themselves particularly in studies of nineteenth century literature and culture Likewise narratives of psychological trauma have been largely understood in Cathy Caruth's words as the attempt to master what was never fully grasped in the first place Such readings privilege the reader as a necessary interpreter of physical or psychological injury By contrast Narratives of Injury reasserts the

Peace and Power in Cold War Britain Christopher R. Hill,2018-08-09

Peace and Power in Cold War Britain explores the ban the bomb and anti Vietnam War movements from the perspective of media history focusing in particular on the relationship between radicalism and the rise of television In doing so it addresses two questions both of which seem to recur with each major breakthrough in communications technology what do advances in communications

media mean for democratic participation in politics and how do distinctive types of media condition the very nature of that participation itself In answering these the book views the ban the bomb and anti Vietnam War movements in relation to communication power and media discourse It highlights how these movements intersected with parts of public life that were being transformed by television themselves shaping struggles for social change among activists and public intellectuals on the streets in the Labour Party and in the law courts The significance of this relationship between media and movements was complex and wide ranging Christopher R Hill demonstrates that it contributed to the enrichment of democracy in Cold War Britain with radicals serving to innovate and pioneer creative forms of political expression from both in and outside of media organisations However the movements increasingly succumbed to news coverage and values that revolved around human interest and violence feeding into the revolutionary spectacle of 1968 and the turn towards identity politics
