O Level Shona Syllabus Zimsec:

Teacher in Zimbabwe, 2014 Ancient and Indigenous Wisdom Traditions in African and Euro-Asian Contexts Ehaab Abdou, Theodore Zervas, 2024-08-01 This book brings attention to the understudied and often overlooked question of how curricula and classroom practices might inadvertently reproduce exclusionary discourses and narratives that omit or negate particular cultures histories and wisdom traditions With a focus on representations and classroom practices related especially to ancient and Indigenous wisdom traditions and cultures it includes unique contributions from scholars studying these questions in various contexts The book offers a range of important studies from key African and Euro Asian contexts including Afghanistan Albania Greece Iran South Africa Sweden T rkiye and Zimbabwe The various chapter contributions address and discuss nuances of each of the contexts under study The contributions also help highlight some key commonalities across these contexts including how dominant discourses and various forces have historically shaped and continue to shape and reproduce such omissions misrepresentations and marginalization In addition to seeking to reconcile with some of these ancient and Indigenous wisdom traditions and cultures the book charts a path forward towards more holistic analytical frameworks as well as more inclusive and balanced representations and classroom practices in these aforementioned geographic contexts and beyond It will appeal to scholars researchers undergraduate and graduate students with interests in Indigenous education curriculum studies citizenship education history of education religion and educational policy

Education and Development in Zimbabwe Edward Shizha, Michael T. Kariwo, 2012-01-01 The book represents a contribution to policy formulation and design in an increasingly knowledge economy in Zimbabwe It challenges scholars to think about the role of education its funding and the egalitarian approach to widening access to education The nexus between education democracy and policy change is a complex one The book provides an illuminating account of the constantly evolving notions of national identity language and citizenship from the Zimbabwean experience The book discusses educational successes and challenges by examining the ideological effects of social political and economic considerations on Zimbabwe s colonial and postcolonial education Currently literature on current educational challenges in Zimbabwe is lacking and there is very little published material on these ideological effects on educational development in Zimbabwe This book is likely to be one of the first on the impact of social political and economic meltdown on education The book is targeted at local and international academics and scholars of history of education and comparative education scholars of international education and development undergraduate and graduate students and professors who are interested in educational development in Africa particularly Zimbabwe Notwithstanding the book is a valuable resource to policy makers educational administrators and researchers and the wider community Shizha and Kariwo s book is an important and illuminating addition on the effects of social political and economic trajectories on education and development in Zimbabwe It critically analyses the crucial specifics of the Zimbabwean situation by providing an in depth discourse on education at this

historical juncture The book offers new insights that may be useful for an understanding of not only the Zimbabwean case but also education in other African countries Rosemary Gordon Senior Lecturer in Educational Foundations University of Zimbabwe Ranging in temporal scope from the colonial era and its elitist legacy through the golden era of populist universal elementary education to the disarray of contemporary socioeconomic crisis covering elementary through higher education and touching thematically on everything from the pernicious effects of social adjustment programmes through the local deprofessionalization of teaching this text provides a comprehensive wide ranging and yet carefully detailed account of education in Zimbabwe This engagingly written portrayal will prove illuminating not only to readers interested in Zimbabwe s education specifically but more widely to all who are interested in how the sociopolitical shapes education how ideology policy international pressures economic factors and shifts in values collectively forge the historical and contemporary character of a country s education Handel Kashope Wright Professor of Education University of British Columbia

Multidisciplinary Humane Perspectives on Education Lawrence Ogbo Ugwuanyi, 2024-01-16 While the majority of mankind access education and while different ideologies and philosophies may motivate education educational delivery and attainment it is important to discuss how through these humanity may become more human by realising its full potential This book addresses issues such as equality inclusiveness cosmopolitan worldviews and conflicting pressures in education in a manner that makes every member of the human community accountable to the others through education History A-Level (ZIMSEC) Past Exam Questions and Model Answers David Chitate , 2024-06-06 This book contains the most comprehensive question bank and model answers for ZIMSEC A Level History exam questions It also includes syllabus review notes and exercises History subject Examiners provide observations and tips and point out common errors that students make when answering questions If you use this book faithfully it will be almost impossible for you to fail Use this book and earn yourself a Grade A in History Moto , 1999 *New Leaders, New Dawns?* Chris Brown, David Moore, Blair Rutherford, 2022-06-17 In late 2017 and early 2018 South Africa and Zimbabwe both experienced rapid and unexpected political transitions In Zimbabwe Robert Mugabe the only leader the country had ever known was replaced in a soft coup by his erstwhile vice president Emmerson Mnangagwa Over a twelve day period in February 2018 South African president Jacob Zuma was prematurely forced from office by his former deputy president Cyril Ramaphosa The widespread popular rejoicing that accompanied their arrival compounded the shock of these sudden transitions *New Leaders New Dawns* explores these political transitions and the way they were received Contributors consider how the former liberation heroes Mugabe and Zuma could have fallen so low the underlying reasons for their ouster what happened to their liberation movements turned ruling parties and perhaps most importantly what the rise to power of Ramaphosa and Mnangagwa foreshadowed Bringing together fourteen leading international scholars of southern Africa and adopting a political economy framework this volume argues that the changes in leadership are welcome but insufficient While the time had come for Zuma and Mugabe to go

there is little in the personal histories or early policy actions of Ramaphosa and Mnangagwa that suggests they will be capable of addressing the profound social economic and political problems both countries face New Leaders New Dawns reveals that despite what these new leaders may have promised a new dawn has not yet arrived in southern Africa
