Medical Care Jessica L. Colburn, Bruce Leff, Mariah L. Robertson, Mattan Schuchman, 2024-11-25 Older adults are living longer with more chronic disease and functional impairment than at any other time in history Office based practice is inadequate to meet the needs of patients who have difficulty leaving their homes for routine or urgent visits and health care clinicians must choose between trying to manage their problems via telehealth or sending them to the emergency room via ambulance Indeed many clinicians receive little or no training in home based medical care and are unable to consider a home visit that might avert a health crisis or an emergency room visit Other clinicians know that house calls are possible but may not know how to work them into day to day practice In recent years a growing number of clinicians have focused their practice on home based medical care to meet the rising need In fact there has been a substantial increase in house calls provided to Medicare beneficiaries In 2023 over 750 000 traditional Medicare beneficiaries and in 2022 over 680 000 Medicare Advantage beneficiaries received longitudinal home based medical care While the number of house calls has increased rapidly the number of clinicians providing those visits has markedly decreased suggesting that clinicians who are providing such care are making it the sole focus of their practice This book is intended to be a practical reference for any clinician who has struggled to care for an older adult who has difficulty getting to the office By describing fundamental principles of geriatric house call medicine and application to specific diseases and conditions we hope to provide clinicians with the tools they need to provide timely compassionate and high quality care for their older adult patients The second edition has been updated to reflect changes in the healthcare system and approaches to care since the publication of the first edition

Guideline for EN 9100:2018 Martin Hinsch, 2020-05-02 The European Standard EN 9100 is the industry specific norm of the aerospace and defence industry For cooperation with an aerospace company certification according to this standard is usually mandatory for suppliers This book provides support in understanding and implementing the standard or when switching from ISO 9001 2015 to EN 9100 2018 After an introduction to the ISO 9001 the emphasis is placed on the core characteristics of EN 9100 and EN 9120 The book focuses primarily on the explanation and translation of the standards text into the language of everyday business The structure of the book strictly follows that of EN 9100 2018 Numerous practical examples facilitate the understanding and implementation in your own company Where appropriate special characteristics of the distributor standard EN 9120 are also discussed Finally the author describes the certification process in great detail This includes the preparation the selection of a certification auditor and a certification body as well as the execution of the audit including process measurements the handling of nonconformities and the issuing of the certificate Due to the high degree of congruence between the standards of the EN 9100 series this book is also suitable as a guideline for the EN 9110 for maintenance organisations and the EN 9120 for distributors The target group This textbook is aimed at employees working in the quality department of suppliers in the aerospace industry
