Board of Education,1928 **Independent Schools** ,2000 *Private Independent Schools, 1986* Bunting & Lyon, Incorporated,1986-12 **Command Influence** Robert A. Shaines,2010-11-23 George C Schreiber was a twenty five year old second lieutenant in charge of an Air Police guard unit in Pusan Korea A year earlier in 1951 he had innocently been teaching fifth and sixth grade children in Brookfield Illinois A year later he was convicted by a general court martial of premeditated murder The unconscionable injustice made no sense to twenty three year old Air Force lawyer Robert A Shaines and Schreiber s story has haunted his thoughts ever since *Command Influence* chronicles Shaines first hand observation of the dramatic events leading up to the trial of Schreiber and two of his contemporaries and shows how he Schreiber and others became pawns in a power game among ambitious and vindictive men eager only to please those who could advance their military careers This series of events would ultimately involve the Chief of Staff of the Air Force the Governor of Illinois the President and the Supreme Court of the United States and bring about a change in the law which would reach the highest levels of government A fascinating tale of military and legal history *Command Influence* is also a captivatingly personal vindication of the conscience of the author who comes to understand that he and Schreiber were a couple of dedicated but naive and trusting young fellow officers whose lives and characters became permanently shaped by these events Both were victims in their own ways **Bulletin** ,1944

Ploughshares and Swords Jayita Sarkar,2022-07-15 India s nuclear program is often misunderstood as an inward looking endeavor of secretive technocrats In *Ploughshares and Swords* Jayita Sarkar challenges this received wisdom narrating a global story of India s nuclear program during its first forty years The book foregrounds the program s civilian and military

features by probing its close relationship with the space program Through nuclear and space technologies India's leaders served the technopolitical aims of economic modernity and the geopolitical goals of deterring adversaries The politically savvy transnationally connected scientists and engineers who steered the program obtained technologies materials and information through a variety of state and nonstate actors from Europe and North America including both superpowers They thus maneuvered around Cold War politics and the choke points of the nonproliferation regime Hyperdiversification increased choices for the leaders of the nuclear program but reduced democratic accountability at home The nuclear program became a consensus enforcing device in the name of the nation Ploughshares and Swords is a provocative new history with global implications It shows how geopolitical and technopolitical visions influence decisions about the nation after decolonization Thanks to generous funding from the Swiss National Science Foundation the ebook editions of this book are available as Open Access volumes from Cornell Open cornellpress.cornell.edu/cornell-open and other repositories
