Kleck, 2017-07-12 By 1990 there were approximately 200 million guns in private hands in the United States and around half of American households contained a gun Over 30 000 people a year are killed with guns in suicides homicides and accidents and Americans use guns for defensive purposes as many as a million times a year There is little doubt that gun violence and control are issues of vital importance and they continue to inspire national debate It is doubtful however that most gun debates are worth listening to Not surprisingly they generally leave their participants exactly where they began with their biases intact and onlookers perplexed Written deliberately to counter an atmosphere of hysteria and extremism Point Blank now in paperback offers logical argument supported by empirical information It confronts fundamental questions head on On its initial publication in 1993 Point Blank won the Michael J Hindelang Award of the American Society of Criminology for the book that made the most outstanding contribution to criminology Point Blank reports both original research and assesses existing evidence drawn from a wide variety of academic disciplines including criminology sociology law and medicine

Collecting Inspiration: Edward C. Moore at Tiffany & Co. Medill Higgins Harvey, Andrea Achi, Deniz Beyazit, Monika Bincsik, John Byck, Sheila R. Canby, Maryam Ekhtiar, Moira Gallagher, Kyriaki Karoglou, Christopher S. Lightfoot, Pengliang Lu, Amy McHugh, Iris Moon, Annamarie Sandeck, Karen Stamm, Catherine D. Stergar, 2021-07-06 Edward C Moore 1827 1891 was the creative leader who brought Tiffany Co to unparalleled originality and success during the late nineteenth century A silversmith designer and prodigious collector Moore sought out exceptional objects from around the world which he then used as inspiration for Tiffany's innovative silver designs This informative richly illustrated volume the first study of Moore's life collection and influence presents more than 170 examples from his vast collection ranging from Greek and Roman glass to Spanish vases Islamic metalwork and Japanese textiles These are juxtaposed with sixty magnificent silver objects created

by the designers and artisans at Tiffany who were inspired by Moore's acquisitions. Included among them are the world famous Bryant Vase drawing upon Greek examples a love cup featuring ornate Saracenic decoration and a chocolate pot incorporating novel techniques influenced by Japanese ceramics and lacquerware. The illuminating texts have been enriched by groundbreaking research into contemporary sources such as newspapers and periodicals the Tiffany Co Archives and a newly identified technical manual and supervisor's diaries all of which provide an intimate look at the firm's design processes and Moore's role in shaping them. A valuable contribution to the history of American decorative arts. *Collecting Inspiration* illuminates both the legendary Tiffany aesthetic and the legacy of a significant collector, designer and entrepreneur of the Gilded Age. **Catalog of Copyright Entries** Library of Congress. Supreme Court, 2010 **The Hand Gun Story** John Walter, 2008-06-30 A firearms expert traces the history of the one hand gun from its 14th century origins surveying changing technology techniques and design. *Midwest Book Review* Ideally suited for both attack and self defense handguns have gotten smaller and deadlier. But the earliest pistols had a tendency to misfire. This was cured by the cap lock which proved a massive success in the American Civil War with hundreds of thousands of cap lock revolvers used on each side. Self contained metal case cartridges were to bring a fundamental change to handgun design not only by allowing the introduction of revolvers that ejected automatically or were easily reloaded but also by paving the way for the automatic pistol. World War I provided the handgun with a proving ground. At the end of the hostilities with so much surplus weaponry work on the handgun could have ceased instead a new developmental phase was begun by the nations that had emerged from the crumbling Imperial empires. During World War II the efficiency of well established designs was confirmed and new designs such as the Walther P 38 showed their potential. The emergence of the submachine gun in 1945 reduced the status of the handgun but only temporarily. The need for efficient self defense shows no signs of lessening and the rise in shooting for sport particularly with the revolver has sharpened the quest for efficiency. The never ending search for advanced production techniques shows that the handgun has as much a future in the twenty first century as it had in the heyday of the Wild West or in the trenches of Passchendaele. As the new year of 1944 began in Italy the Allied army's momentum had ground to a halt just south of the vaunted German Gustav Line of defense far short of their initial objective of liberating Rome by Christmas. The fighting up the Italian peninsula had been brutal rugged

terrain fierce resistance terrible weather While Allied leaders in London prepared for the cross Channel invasion of France later that spring the war in the West hinged in Italy As bestselling historian James Holland relates in his seminal concluding volume on the Italy Campaign the next five months saw two of World War II s most famous battles the four ferocious assaults on Monte Cassino and the fraught landing northwest in the marshes at Anzio culminating at last in the liberation of Rome on June 4 merely two days before D Day Based on twenty years of research *Cassino 44* offers perspectives and conclusions that differ from the standard narrative Holland elevates the narrative of war chronicling the dramatic events primarily through in the moment letters and diaries of those who were there Counterpointing the memories of German soldiers like battalion commander Jurg Kellner with those of British captain John Strick and American corporal Audie Murphy whose exploits in the field would lead to Hollywood fame and of Italian citizens and politicians caught up in the maelstrom Holland vividly recreates their day to day encounter with destiny over each bloodily contested mile General Mark Clark overall Allied commander in Italy has been criticized for being overly cautious and needlessly extending the campaign Holland argues that given the conditions and constant shortage of materiel held back for the D Day invasion Clark and other commanders led a remarkably successful campaign Well more than 100 000 Allied casualties occurred in the five months leading to Rome more than in any other campaign of the war *Cassino 44* is the definitive account of a key turning point of World War II and brings our appreciation of the experience of war to a new level *United States Reports* Supreme Court, Judiciary, 2016-04-26
