Pity Transformed Classical Inter Faces:

Pity Transformed David Konstan, 2015-03-02 Pity Transformed is an examination of how pity was imagined and expressed in classical antiquity. It pays particular attention to the ways in which the pity of the Greeks and Romans differed from modern ideas. Among the topics investigated in this study are the appeal to pity in courts of law and the connection between pity and desert, the relation between pity and love or intimacy, self-pity, the role of pity in war and its relation to human rights and human dignity, divine pity from paganism to Christianity, and why pity was considered an emotion. This book will lead readers to ponder how the Greeks and Romans were both like and unlike us in this fundamental area of cultural sensibility.

Michael Psellos Stratis Papaioannou, 2013-05-09 This book explores Michael Psellos' place in the history of Greek rhetoric and self-representation and his impact on the development of Byzantine literature. Avoiding the modern dilemma that vacillates between Psellos the pompous rhetorician and Psellos the ingenious thinker, Professor Papaioannou unravels the often misunderstood Byzantine rhetoric, its rich discursive tradition, and the social fabric of elite Constantinopolitan culture which rhetoric addressed. The book offers close readings of Psellos' personal letters, speeches, lectures, and historiographical narratives, and analysis of other early Byzantine and classical models of authorship in Byzantine book culture such as Gregory of Nazianzos, Synesios of Cyrene, Hermogenes, and Plato. It also details Psellos' innovative attention to authorial creativity, performative mimesis, and the aesthetics of the self. Simultaneously, it traces within Byzantium complex expressions of emotion and gender, notions of authorship and subjectivity, and theories of fictionality and literature, challenging the common fallacy that these are modern inventions.

Shakespeare's Compassion Anne Sophie Refskou, 2025-03-20 This book shows that Shakespeare's dramatization of compassion far from expressing a sense of universal empathy, stages a conflicted emotion available to be solicited, manipulated, and at times even monopolized as a discursive vehicle for the exclusion of others. Drawing on the history of emotions and on Shakespearean classical studies, Anne Sophie Refskou argues both that Shakespeare's compassion expresses his own historical and cultural moment and is at the same time the product of his close engagement with literature from the classical past. In so doing, she traces a set of recurrent strands in Shakespeare's engagement with discourses of compassion throughout his playwriting career, situating them in relation to plays written for the early modern stage by contemporaries including Thomas Kyd, George Peele,

Christopher Marlowe Thomas Nashe John Fletcher and Philip Massinger Individual chapters offer readings of Titus Andronicus Richard III Hamlet and King Lear by way of comparative analysis of key classical texts including Euripides Hecuba and The Trojan Women Vergil's Aeneid and Ovid's Metamorphoses from which Shakespeare and his fellow playwrights drew sustained inspiration Together the chapters demonstrate how Shakespeare's engagement with the classical literature from which he inherited a spacious understanding of the social efficacy of emotion enables his dramatization of issues that are central to the current critical field including questions of race gender sexuality and the relationship between human beings and nonhuman animals

Passions of the Christ F. Scott Spencer, 2021-05-04 Senior New Testament scholar F. Scott Spencer focuses on a neglected area in the study of Jesus and the Gospels the emotional life of Jesus This book offers a fresh reading of the Gospels through the lens of Jesus's emotions anger grief disgust surprise compassion and joy These emotions motivate Jesus's mission and reveal to Gospel readers what matters most to him Amid his passions Jesus forges his character as God's incarnate Messiah wholly embodied and emotionally engaged with others and thoroughly embedded in the surrounding environment

Gender and the Interpretation of Classical Myth Lillian Doherty, 2015-03-02 Myths reflect reinforce and sometimes subvert gender ideologies and so have an influence in the real world This is true in the present no less than when the Greek and Roman myths were created The struggles to redefine gender roles and identities in our own time are inevitably reflected in our interpretations and retellings of these classical myths Using the new lenses provided by gender studies and diverse forms of feminism Lillian Doherty re-examines some of the major approaches to myth interpretation in the twentieth century psychological ritualist charter structuralist and folklorist She also explores popular uses of classical mythology from television and comic books to the evocation of goddesses in Jungian psychology

Ancient Forgiveness Charles L. Griswold, David Konstan, 2012 In this book eminent scholars of classical antiquity and ancient and medieval Judaism and Christianity explore the nature and place of forgiveness in the pre-modern Western world They discuss whether the concept of forgiveness as it is often understood today was absent or at all events more restricted in scope than has been commonly supposed and what related ideas such as clemency or reconciliation may have taken the place of forgiveness An introductory chapter reviews the conceptual territory of forgiveness and illuminates the potential breadth of the idea enumerating the

important questions a theory of the subject should explore The following chapters examine forgiveness in the contexts of classical Greece and Rome the Hebrew Bible the Talmud and Moses Maimonides and the New Testament the Church Fathers and Thomas Aquinas

Experiencing Pain in Imperial Greek Culture Daniel King,2018 This volume investigates the history and nature of pain in Greek culture under the Roman Empire 50 250 CE Traditional accounts of pain in this society have focused either on philosophical or medical theories of pain or on Christian notions of suffering fascination with the pained body has often been assumed to be a characteristic of Christian society rather than Imperial culture in general This book employs tools from contemporary cultural and literary theory to examine the treatment of pain in a range of central cultural discourses from the first three centuries of the Empire including medicine religious writing novelistic literature and rhetorical ekphrasis It argues instead that pain was approached from an holistic perspective rather than treating pain as a narrowly defined physiological perception it was conceived as a type of embodied experience in which ideas about the body s physiology the representation and articulation of its perceptions as well as the emotional and cognitive impact of pain were all important facets of what it meant to be in pain By bringing this conception to light scholars are able to redefine our understanding of the social and emotional fabric of Imperial society and help to reposition its relationship with the emergence of Christian society in late antiquity

Mormonism and the Emotions Mauro Properzi,2015-05-21 Mormonism and the Emotions An Analysis of LDS Scriptural Texts is an introductory Latterday Saint LDS theology of emotion that is both canonically based and scientifically informed It highlights three widely accepted characteristics of emotion that emerge from scientific perspectives namely the necessity of cognition for its emergence the personal responsibility attached to its manifestations and its instrumentality in facilitating various processes of human development and experience In analyzing the basic theological structure of Mormonism and its unique canonical texts the objective is to determine the extent to which LDS theology is compatible with this three fold definition of emotion At this basic level of explanation the conclusion is that science and Mormon theology undoubtedly share a common perspective The textual investigation focuses on unique Mormon scriptures and on their descriptions of six common emotions hope fear joy sorrow love and hate For each of these emotional phenomena the extensive report of textual references consistently confirms an implied presence of the outlined three fold model of emotion Thus the evidence points to the presence of an underlying folk model of emotion in the text that broadly matches scientific definitions Additionally the theological examination is enlarged with a particular focus on the Mormon theology of atonement which is shown to play a significant role in LDS understandings of emotions A broad exploration of such areas as epistemology cosmology soteriology and the theological anthropology of Mormonism further contextualizes the analysis and roots it in the LDS theological worldview

Individualism Zubin Meer,2011-05-26 Individualism The Cultural Logic of Modernity explores ideas of the modern sovereign individual in the western cultural tradition Divided into two sections this volume surveys the history of western individualism in both its early and later forms chiefly from the sixteenth

to the eighteenth centuries and then individualism in the twentieth century These essays boldly challenge not only the exclusionary framework and self assured teleology but also the metaphysical certainty of that remarkably tenacious narrative on the rise of the individual Some essays question the correlation of realist characterization to the eighteenth century British novel while others champion the continuing political relevance of selfhood in modernist fiction over and against postmodern nihilism Yet others move to the foreground underappreciated topics such as the role of courtly cultures in the development of individualism Taken together the essays provocatively revise and enrich our understanding of individualism as the generative premise of modernity itself Authors especially considered include Locke Defoe Freud and Adorno The essays in this volume first began as papers presented at a conference of the American Comparative Literature Association held at Princeton University Among the contributors are Nancy Armstrong Deborah Cook James Cruise David Jenemann Lucy McNeece Vivasvan Soni Frederick Turner and Philip Weinstein

the use of kinship language in the Pastoral Epistles Raymond F Collins Augustine's Pauline method 1 Corinthians 11:2-16 as a case study Thomas F Martin **Paul and the Philosophers' Faith** Suzan Sierksma-Agter, 2024-07-22 The notion of faith experienced a remarkable surge in popularity among early Christians with Paul as its pioneer Yet what was the wider cultural significance of the *pistis* word group This comprehensive work contextualizes Paul's faith language within Graeco-Roman cultural discourses highlighting its semantic multifariousness and philosophical potential Based on an innovative combination of cognitive linguistics and discourse analysis it explores faith within social political religious ethical and cognitive contexts While challenging modern individualist and irrational conceptualizations this book shows how Paul uses *pistis* to creatively configure philosophical narratives of his age and propose Christ as its ultimate embodiment *Aristotle and Xunzi on Shame, Moral Education, and the Good Life* Jingyi Jenny Zhao, 2024 Despite recent developments in the history of emotions and in comparative studies sustained cross cultural comparative studies of the emotions remain few and far between Jingyi Jenny Zhao has produced the first major work that takes two philosophers from the ancient Greek and early Chinese traditions to stimulate discussion of an interdisciplinary nature on the rich and complex topic of the emotions in particular of shame It features comparative analysis of Greek and Chinese texts while bringing the ancient materials to bear on modern controversies such as the role of shame in moral education and social cohesion Although unlike in their social historical and intellectual backgrounds Aristotle and Xunzi bear striking similarities in several respects they both conceptualize humans as essentially members of communities as having a unique set of characteristics that set them apart from other living things and as beings in need of moral training to fulfil their potential and become integrated into a well ordered society The two philosophers' discourses on shame reveal important insights into their ideals of human nature moral education and the good life This book tackles directly the methodological problems that are relevant to anyone interested in cross cultural comparisons and organizes discussions of the ancient sources to facilitate a thorough integration of perspectives from the cultural traditions concerned This approach provides sufficient focus to allow for detailed textual analysis while giving scope for making constant connections to the broader comparative questions at issue **For Your Sake He Became Poor** Georges Massinelli, 2021-04-19 The Pauline collection for the poor in Jerusalem is the most famous example of financial support for geographically distant groups in early Christianity Recent assessments of the Pauline collection have focused on patronage to explain the social relations between Jerusalem and the Pauline groups and the strategies adopted by Paul Through a comparison with the Greco-Roman world and a close reading of the texts this study challenges the recent approach and proposes that other factors shaped Paul's stance Paul was interested in reassuring the Corinthians about the financial outcome of the collection and dispelling doubts that he might take advantage of them The collection was an action modeled on divine generosity and an exchange within a reciprocal relationship between Christian groups This study also surveys intergroup support between Christian groups in the first three centuries CE This practice

involved churches from most of the Mediterranean Basin and was known even outside of Christian circles Transfers of money were organized according to a consistent pattern modeled on local charitable practices The Pauline collection had similar characteristics and can be seen as part of this widespread economic practice

Rome and the Literature of Gardens

Victoria Emma Pagán,2013-10-10 Rome and the Literature of Gardens explores the garden as a powerful locus of transformation and transgression in the De Re Rustica of Columella the Satires of Horace the Annals of Tacitus and the Confessions of Saint Augustine In keeping with the approach of this series a concluding chapter examines the reincarnation of these expressions in the contemporary plays Arcadia and The Invention of Love by Tom Stoppard Many books on gardens in ancient Rome concentrate on either technical agricultural manuals or pastoral poetry or the physical remains of Roman gardens Instead this book considers images of gardens from a kaleidoscope of genres especially those that the Romans made their own satire annalistic history and autobiography This atypical approach makes a unique contribution to the field of Latin literature and garden history bridging the gap between material culture and cultural history
