Building Inclusive Education in K-12 Classrooms and Higher Education: Theories and Principles Koreeda, Kiyoji,Tsuge, Masayoshi,Ikuta, Shigeru,Dalton, Elizabeth Minchin,Ewe, Linda Plantin,2023-06-12 Most

people recognize the importance of inclusive education and hope to promote it everywhere at all levels and situations in education. However, the road to realizing this ideal is by no means a smooth one; due to this, further study is required. *Building Inclusive Education in K-12 Classrooms and Higher Education: Theories and Principles* discusses various inclusive practices in K-12 classrooms and higher education all over the world and presents problems and challenges that educators are struggling to overcome. Covering key topics such as educational technology, global movement, and inclusive education, this major reference work is ideal for administrators, policymakers, industry professionals, researchers, academicians, scholars, practitioners, instructors, and students.

Parallel Curriculum Units for Language Arts, Grades 6-12 Jeanne H. Purcell, Jann H. Leppien, 2009-08-25. The Parallel Curriculum Model (PCM) holds the power to help students and teachers see the whole of what they are learning. We invite practitioners to read more about this model and join us on a professional journey that we believe will yield that joy and wisdom that comes from seeing the whole. To address the varying needs of teachers across the K-12 grade span as well as different content areas, we decided to create a series of curriculum units based on PCM that could be used by practitioners. It is our hope that the lessons not only underscore important and discipline-specific content but also illuminate the four parallels in unique and enduring ways. From the Introduction: Design exemplary language arts lessons based on the Parallel Curriculum Model. Want to create rigorous learning opportunities for students in language arts based on a deeper understanding of pedagogy and curriculum design? As demonstrated in the best-selling book *The Parallel Curriculum*, the Parallel Curriculum Model (PCM) allows teachers to determine student performance levels and design intellectual challenges that help students develop expertise in specific subject areas. *Parallel Curriculum Units for Language Arts, Grades 6-12* provides sample language arts units written by practicing teachers to demonstrate what high-quality curriculum looks like within a PCM framework. Covering a variety of topics including narrative voice, literary criticism, and writing original pieces, these field-tested units each contain Teacher Rationales explaining the unit design, Connections to concepts, skills, and national or state standards, Step-by-step directions for delivering the lessons, and Unit Modification strategies, assessments, and reproducibles. Use these examples to design your own units and deepen your understanding of how the PCM framework helps tailor curriculum to the abilities, interests, and learning preferences of each learner.

Curriculum Design for Writing Instruction Kathy Tushman Glass, 2004-12-09. The author's conversational style hooks and easily engages readers into the four-step curriculum design process, well-sequenced array of design templates, and lesson models, synthesis of the six traits and writing process elements, and integration of history, social science, and science content. Carl Zon, Standards and Assessment Consultant, Coach Connections, Sunnyvale, CA. This book effectively walks educators through the standards-based lesson design process in a way that is clear, compelling, and achievable while simultaneously building content knowledge and extending understanding. Ruth Goldhammer, Coordinator, Curriculum and Staff Development, San Mateo County Office of Education, CA. Design innovative and engaging lessons and units that produce measurable gains.

This clever new resource takes the reader step by step through the curriculum design process from identifying national and local standards and translating them into user friendly language to crafting meaningful writing assignments and assessments that effectively reveal student strengths and weaknesses Rooted in the six traits model of instruction and assessment and illuminated by relevant classroom examples Glass's four part process shows teachers how to Identify grade level content standards for writing Create a teacher rubric with a clear set of criteria for writing assessment Craft a student checklist that guides students through the unit and prepares them for teacher expectations Design lessons that help students achieve success Replete with tools strategies examples and reproducibles Curriculum Design for Writing Instruction is a valuable resource for any teacher who wants to boost student achievement in writing for any subject and for any grade level
