

Findings about Fee Structures

- Fee structures for MBUF/RUC *could* be intentionally complex
 - Example: rates could differ by fuel type, weight, road, ..
 - Higher rates for privacy-protecting systems (no location)
 - But existing data flows on highway use might not be sufficient to predict total fees collected (vs. gas tax rate)
- We gathered vehicle-level data from Pennsylvania for more than 10 years to assess how a MBUF might work..
