Writing Migration through the Body Emma Bond,2018-09-05 Writing Migration through the Body builds a study of the body as a mutable site for negotiating and articulating the transnational experience of mobility At its core stands a selection of recent migration stories in Italian which are brought into dialogue with related material from cultural studies and the visual arts Occupying no single disciplinary space and drawing upon an elaborate theoretical framework ranging from phenomenology to anthropology human geography and memory studies this volume explores the ways in which the skin itself operates as a border and brings to the surface the processes by which a sense of place and self are described and communicated through the migrant body Through investigating key concepts and practices of transnational embodied experience the book develops the interpretative principle that the individual bodies which move in contemporary migration flows are the primary agents through which the transcultural passages of images emotions ideas memories and also histories and possible futures are enacted

Illiberal Vanguard Alexandar Mihailovic,2023-02-14 Recent years have witnessed a growing affinity between increasingly radicalized right wing movements in the United States and Russia countries that only recently viewed each other as intractable foes In Illiberal Vanguard Populist Elitism in the United States and Russia Alexandar Mihailovic untangles this confluence considering ethnonationalist movements in both countries and their parallel approaches to gender race and performative identity Rather than probe specific points of possible contact or political collusion Mihailovic unveils the mirrored styles of thought that characterize far right elitism in two erstwhile enemy nations Mihailovic investigates notable right wing actors like Steve Bannon and Alexander Dugin and targets of right wing ire such as globalization LGBTQ activism and mobilizations to remove controversial statues that honor Confederate generals and Soviet leaders for instance but the argument extends beyond the specifics How and why are radical right wing movements developing along such similar trajectories in two nominally oppositional countries How do religious sectarianism the construction of whiteness and institutionalized homophobia support each other in this transnational informal but powerful allegiance Despite their appeals to populism and flamboyant theatrics Mihailovic argues much of the answer can be found in the mutual desire to justify and organize an illiberal vanguard of elite intellectuals one that supports and advocates for a new authoritarianism
