- Dial Type Image Position Adjustment
- Underswing Infeed Mechanism
- Lever-Free Operation
- Crawl Operation

The Debut of the RYOBI 512H – Featuring the "RYOBI SuperDampener" Continuous Dampening System

The 510 Series meets customers' needs with remarkably high quality and ease of operation.

The RYOBI 510 Series represents the ideal choice for entry-level process color printing, offering a host of innovative features designed to deliver precision printing, including the satellite V-shaped 5-cylinder system, double sprung grippers, and underswing infeed mechanism. Ryobi is proud to introduce the newest 510 family member, the 512H, a two-color press featuring a continuous dampening system.

In response to customer needs, Ryobi developed the new RYOBI SuperDampener, a proprietary continuous dampening system that enables the 512H to handle high-quality color printing with simple, easy dampening volume adjustment. The SuperDampener also allows the use of a wide variety of plates, including pre-sensitized metal plates and polyester-based plates.

There are four models in the line-up: the RYOBI 512 and RYOBI 512H two-color presses with the satellite V-shaped 5-cylinder system, and the RYOBI 510 single-color press offer simple lever-free operation, while the RYOBI 510-NP with built-in NP unit adds value with numbering processing. The RYOBI 510 Series meets the wide-ranging needs of customers who demand superior cost-performance.
