Sail University Summer Vacation Schedule 2014:

Extreme Sports Medicine Francesco Feletti, 2016-09-19 This technically oriented book on medicine as applied to extreme sports offers broad coverage of the field extending well beyond the usual focus on major trauma and acute injuries. In addition to the injuries and diseases associated with individual extreme sports, this book also addresses the topics of psychology, dermatology, ophthalmology, infectious diseases, physiology, nutrition, training, injury prevention strategies, rehabilitation, doping, treatment in hostile environments, and legal aspects. Innovative and less frequently considered topics are also discussed, such as recent advances in protective equipment and materials, the effects of exposure on whole body vibration and cold exposure risk management. More than 60 of the most authoritative experts from across the world have contributed to this book, drawing on their personal experiences and including practical examples whenever relevant. Both subject matter and illustrations have been selected with the utmost care, the latter including photographs of world class athletes. The book's multidisciplinary approach to the subject ensures that it will be relevant to a wide readership. *Impact!*

Elizabeth Rusch, 2017 Asteroids come in all shapes and sizes and hit our planet in them too. But what happens if a catastrophically large one approaches earth? By looking on the ground at historical asteroid craters and present day falls and up into space for the big ones yet to come, a wide variety of scientists are trying to figure out how to track asteroids and how to avoid devastating impacts in the future.

Procopius of Caesarea: Literary and Historical Interpretations

Christopher Lillington-Martin, 2017-07-06 This volume aims to encourage dialogue and collaboration between international scholars by presenting new literary and historical interpretations of the sixth century writer Procopius of Caesarea, the major historian of Justinian's reign. Although scholarship on Procopius has flourished since 2004, when the last monograph in English on Procopius was published, there has not been a collection of essays on the subject since 2000. Work on Procopius

since 2004 has been surveyed by Geoffrey Greatrex in his international bibliography Peter Sarris has revised the 1966 Penguin Classics translation of and introduced Procopius Secret History 2007 and Anthony Kaldellis has edited translated and introduced Procopius Secret History with related texts 2010 and revised and modernised H B Dewing s Loeb translation of Procopius Wars as The Wars of Justinian in 2014 This volume capitalises on the renaissance in Procopius related studies by showcasing recent work on Procopius in all its diversity and vibrancy It offers approaches that shed new light on Procopius texts by comparing them with a variety of relevant textual sources In particular the volume pays close attention to the text and examines what it achieves as a literary work and what it says as an historical product

Border Security

Peter Chambers, 2017-09-27 What kind of a world is one in which border security is understood as necessary How is this transforming the shores of politics And why does this seem to preclude a horizon of political justice for those affected Border Security responds to these questions through an interdisciplinary exploration of border security politics and justice Drawing empirically on the now notorious case of Australia the book pursues a range of theoretical perspectives including Foucault's work on power the systems theory of Niklas Luhmann and the cybernetic ethics of Heinz Von Foerster in order to formulate an account of the thoroughly constructed and political nature of border security Through this detailed and critical engagement the book's analysis elicits a political alternative to border security from within its own logic thus signaling at least the beginnings of a way out of the cost cruelty and devaluation of life that characterises the enforced reality of the world of border security

A Glass Half Full? Michael E. O'Hanlon, James Steinberg, 2017-05-30 How to stabilize the security relationship between Washington and Beijing The U S China relationship has not always been smooth but since Richard Nixon's opening in the early 1970s the two countries have evolved a relationship that has been generally beneficial to both parties Economic engagement and a diplomatic partnership together with robust trade and investment relations among other activities have meant a peaceful context for reform and China's rise helping to lift millions of Chinese out of poverty and giving the PRC incentive to work within the U S led global order The logic of the relationship however is now open to serious debate on both sides of the Pacific After a period of American preoccupation with the Middle East President Obama attempted a rebalancing of U S interests toward the Asia Pacific region With the Trump administration in office the U S China relationship appears to be at a crossroads does it continue to focus on constructive engagement and managing differences or prepare for a new era of rivalry and conflict Here following up on their 2014 book Strategic Reassurance and Resolve the authors provide a more balanced assessment of the current state of relations and suggest measures that could help stabilize the security relationship without minimizing the very real problems that both Beijing and Washington must address The authors are hopeful but are also under no illusions about the significance of the challenges now posed to the bilateral relationship as well as regional order by the rise of China and the responses of America together with its allies

The Earth-Moon System as a Dynamical Laboratory Elisa Maria Alessi, Josep Masdemont, Alessandro Rossi, 2019-09-25 The Earth Moon neighborhood is the scene of a large variety of applications that concern asteroids lunar exploration and space debris in Earth orbit In particular recent efforts by the

scientific community have focused on the possibility of extending the human operations beyond the radiation belts of exploiting in situ resources either on the lunar surface or on asteroids retrieved to the vicinity of the Earth and of mitigating the space debris concern by taking advantage of the lunar perturbation The characteristic dynamics in the cislunar space represents an opportunity for the mission designer but also a challenge in terms of theoretical understanding and operational control This Research Topic covers the Earth Moon dynamics in its complexity and allure considering the most relevant aspects for both natural and artificial objects in order to get a new comprehension of the dynamics at stake along with the operational procedures that can handle it *Biomedical Applications of Natural Polymers* Yongsheng Yu,Qian Feng,Kunyu Zhang,Boguang Yang,2023-06-05
