Migration Politics across the World Katharina Natter, Hélène Thiollet, 2023-12-04. This book breaks new ground in scholarship on the politics of migration. The edited volume brings together in depth case studies from Argentina, Tunisia, Japan, South Korea, the United States, Australia, the Philippines, China, and Saudi Arabia to showcase the complex interplay between migration politics and broader dynamics of regime change, state formation, and nation-state ideology. Challenging conventional wisdom, we reveal that political systems, whether liberal or illiberal, democratic or authoritarian, do not rigidly dictate migration politics. Instead, migration politics and political regimes co-produce one another. Our exploration delves into the roles of civil society, legal actors, employers, and international norms across diverse political contexts and bridges conversations around immigration and emigration politics. Uncovering unexpected similarities in migration policies across different political regimes at a time when states are increasingly adopting illiberal practices, this collection is essential for political scientists, sociologists, and migration scholars seeking a fresh perspective. *Migration Politics Across the World* offers an ideal vantage point for understanding the role of migration in state transformations and political changes around the world. The chapters in this book were originally published as a special issue of *Third World Quarterly*.

International Tourism Development and the Gulf Cooperation Council States Marcus L. Stephenson, Ala Al-Hamarneh, 2017-07-14. This book examines the challenges facing the development of tourism in the six member states of the Gulf Cooperation Council (GCC): Bahrain, Kuwait, Oman, Qatar, Saudi Arabia, and the United Arab Emirates (UAE). This region, which largely comprises the Arabian Peninsula, possesses some of the fastest growing economies in the world and is remarkably unique. It shares similar associations and affinities: tribal histories, royal kinship, political associations, Bedu cultural roots, Islamic heritage, rapid urbanization, oil wealth, rentier dynamics, state capitalist structures, migrant labour, economic diversification policies, and institutional restructuring. Therefore, this volume takes the study of tourism away from its normative unit of analysis where tourism in the region is being examined within the context of the Middle East and the wider Islamic and Arab world, towards an enquiry focusing on a specific geo-political territory and socially defined region. Although international tourism development in the region embodies a range of challenges, complexities, and conflicts, which are deeply contextualized in this volume, the approach overall does not endorse the normative Gulf-bashing position that has predominated within the critical enquiries in the region. It presents a forward-looking and realistic assessment of international tourism development, examining development potentialities and constructive

ways forward for GCC states and the region as a whole This edited volume provides a real attempt to examine critically ways in which tourism and its development intersect with the socio cultural economic political environmental and industrial change that is taking place in the region By doing so the book provides a theoretically engaged analysis of the social transformations and discourses that shape our contemporary understanding of tourism development within the GCC region Moreover it deciphers tourism development s role within the context of the GCC states undergoing rapid transformation urbanization ultra modernization internationalization and globalization In addition to state specific illustrations and destination case studies the work provides insights into relatable themes associated with international tourism development in the region such as tourism s relationship with religion heritage and identity the environment and sustainability mobility and cross border movements the transport industry image production and destination branding mega development and political stability and instability The book combines theory with diverse case study illustrations drawing on disciplinary knowledge from such fields as sociology political economy and social geography This timely and original contribution is essential reading for students researchers and academics in the field of tourism studies and related subject areas along with those who have regional interests in Middle East studies including Gulf and Arabian Peninsula studies **The Statesman's Yearbook 2025** Palgrave Macmillan,2025-01-10 Now in its 161st edition The Statesman s Yearbook continues to be the reference work of choice for accurate and reliable information on every country in the world Covering political economic social and cultural aspects the Yearbook is also available online for subscribing institutions **Saudi Arabia Criminal Laws, Regulations and Procedures Handbook - Strategic Information, Regulations, Procedures** IBP, Inc.,2016-03-18 Saudi Arabia Criminal Laws Regulations and Procedures Handbook Strategic Information Regulations Procedures
