Scenes of Projection Jill H. Casid, 2015-01-01 Theorizing vision and power at the intersections of the histories of psychoanalysis media scientific method and colonization *Scenes of Projection* poaches the prized instruments at the heart of the so called scientific revolution the projecting telescope camera obscura magic lantern solar microscope and prism From the beginnings of what is retrospectively enshrined as the origins of the Enlightenment and in the wake of colonization the scene of projection has functioned as a contraption for creating a fantasy subject of discarnate vision for the exercise of reason Jill H Casid demonstrates across a range of sites that the scene of projection is neither a static diagram of power nor a fixed architecture but rather a pedagogical setup that operates as an influencing machine of persistent training Thinking with queer and feminist art projects that take up old devices for casting an image to reorient this apparatus of power that produces its subject *Scenes of Projection* offers a set of theses on the possibilities for felt embodiment out of the damaged and difficult pasts that haunt our present *Troubling Notions of Global Citizenship and Diversity in Mathematics Education*

The Impracticality of Practical Research Thomas Stanley Popkewitz, 2020-04-16 There is an alluring desire that research should lead us to find the practical knowledge that enables people to live a good life in a just and equitable society This desire haunted the 19th century emergence of the social sciences as a discipline then became more pronounced in the postwar mobilizations of research Today that desire lives on in the international assessments of national schools and in the structure of professional education both of which influence government modernization of schools and also provide for people s well being American policy thus reflects research in which reforms are verified by scientific empirical evidences about what works in experiments and will work therefore in society The book explores the idea that practical and useful knowledge changes over time and shows how this knowledge has been re visioned in contemporary research on educational reform instructional improvement and professionalization The study of science draws on a range of social and cultural theories and historical studies to understand the politics of science as well as scientific knowledge that is concerned with social and educational change Research hopes to change social conditions to create a better life and to shape people whose conduct embodies these valued characteristics the good citizen

parent or worker Yet this hope continually articulates the dangers that threaten this future Thomas Popkewitz explores how the research to correct social wrongs is paradoxically entangled with the inscription of differences that ultimately hamper the efforts to include *Epistemic Colonialism and the Transfer of Curriculum Knowledge across Borders* Weili Zhao, Thomas S. The Magic Lantern at Work Martyn Jolly, Elisa deCourcy, 2020-01-20 For centuries various new media technologies have provided individuals with a set of powerful tools to affect their audiences Among these the magic lantern show was perhaps the most pervasive and persuasive Around the world audiences gathered together in darkened rooms to see a sequence of projected images transition one into another as they listened to personal stories or scripted narrations Through the power of the magic lantern audiences for the first time became the direct witnesses to distant often traumatic political events they visually learned new scientific and medical knowledge virtually experienced distant places and collectively experienced strange often uncanny phenomena Although relatively neglected until recently the apparatus of the magic lantern is now receiving the attention it deserves from historians curators and artists Through a set of case studies focusing on the use of the magic lantern by very different but equally fascinating individuals a team of international scholars analyses the emerging power of the lantern show in the nineteenth and twentieth centuries within politics religion travel science health marketing and entertainment The magic lantern s connections to today s multimedia environments are explored through the intertwined themes of connecting experiencing witnessing and persuading

For Pleasure Rachel Jane Carroll, 2023-12-12 Argues that aesthetic pleasure plays a key role in both racial practices and struggles against racist domination *For Pleasure* proposes that experimental aesthetics shaped race in the twentieth century United States by creating transformative scenes of pleasure Rachel Jane Carroll explains how aesthetic pleasure is fundamental to the production and circulation of racial meaning in the United States through a study of experimental work by authors and artists of color *For Pleasure* offers methods for reading experimental

literature and art produced by racially minoritized authors and artists working in and around the US including Isaac Julien Nella Larsen Yoko Ono Jack Whitten Byron Kim Glenn Ligon Zora Neale Hurston Theresa Hak Kyung Cha and Cici Wu Along the way we learn what a racist joke has to do with the history of monochrome painting if beauty has a part to play in social change and whether whimsy should be taken seriously as a political affect Carroll draws attention to key connections between aesthetic pleasure and experimentation through their shared capacity for world building Neither aesthetic pleasure nor experimental forms are liberatory in and of themselves however both can interrupt defamiliarize and rearrange our habits of aesthetic judgment

Empires of light Niharika Dinkar, 2019-09-19 Light was central to the visual politics and imaginative geographies of empire even beyond its role as a symbol of knowledge and progress in post Enlightenment narratives This book describes how imperial mappings of geographical space in terms of cities of light and hearts of darkness coincided with the industrialisation of light in homes streets theatres and its instrumentalisation through new representative forms photography film magic lanterns theatrical lighting Cataloguing the imperial vision in its engagement with colonial India the book evaluates responses by the celebrated Indian painter Ravi Varma 1848 1906 to reveal the centrality of light in technologies of vision not merely as an ideological effect but as a material presence that produces spaces and inscribes bodies

Projecting Spirits Pasi Väliäho, 2022-06-28 The history of projected images at the turn of the seventeenth century reveals a changing perception of chance and order contingency and form In *Projecting Spirits* Pasi Väliäho maps how the leading optical media of the period the camera obscura and the magic lantern developed in response to and framed the era s key intellectual dilemma of whether the world fell under God s providential care or was subject to chance and open to speculating As Väliäho shows camera obscuras and magic lanterns were variously employed to give the world an intelligible and manageable design Jesuit scholars embraced devices of projection as part of their pursuit of divine government whilst the Royal Society fellows enlisted them in their quest for empirical knowledge as well as colonial expansion Projections of light and shadow grew into critical metaphors in early responses to the turbulences of finance In such instances Väliäho argues projection became an indispensable cognitive form to both assert providence and to make sense of an economic reality that was gradually escaping from divine guidance Drawing on a range of materials philosophical scientific and religious literature visual arts correspondence poems pamphlets and illustrations this provocative and inventive work expands our concept of the early media of projection revealing how they spoke to early modern thinkers and shaped a new speculative concept of the world
