A Cold Colonialism Tina Adcock,2025-06-01 Exploration has long been pivotal to southern engagements with northern Canada but it is most often associated with the nineteenth century or earlier A Cold Colonialism offers the first extended examination of twentieth century exploration in the Canadian North Modern exploration helped southerners establish and maintain distinctive kinds of colonial and settler colonial power over northern Indigenous homelands Who explored the North between 1918 and 1965 What forms did exploration take What did it mean to explorers and others affected by it Tina Adcock focuses on four representative explorers with richly documented careers mining engineer George Douglas surveyor Guy Blanchet ethnologist Vilhjalmur Stefansson and filmmaker Richard Finnie Despite limited experience in and knowledge of the Canadian North these explorers helped southern militaries industries and governments exert control over northern peoples and their lands Each also claimed belonging in and authority over the North in ways that still resonate among southern settlers in Canada today

Directory of Publishing Opportunities ,1973 Continental Reckoning Elliott West,2023-02 Elliott West lays out the main events and developments that together describe and explain the emergence of the American West and situates the birth of the West in the broader narrative of American history between 1848 and 1880

The Crazies Amy Gamerman,2025-01-07 A dazzling piece of narrative nonfiction about land lust and the American West The Crazies tells the story of a wind farm that triggers a 21st century range war between a struggling fifth generation rancher and the billionaires next door Most locals in Big Timber Montana learn to live with the wind Rick Jarrett sought his fortune in it Like his pioneer ancestors who staked their claims in the Treasure State he believed in his right to make a living off the land and its newest precious resource million dollar wind Trouble was Jarrett s neighbors were some of the wealthiest and most influential men in America trophy ranchers who d come West to enjoy magnificent mountain views not stare at 500 foot wind turbines And so began an epic showdown that would pull in an ever widening cast of larger than life characters including a Texas oil and gas tycoon a roguish wind prospector a Crow activist fighting for his tribe s rights to the mountains they hold sacred and an Olympic athlete turned attorney whose path to redemption would lead to Jarrett s wind farm A wildly entertaining yarn the brawl over Crazy Mountain Wind would become a fight over the values that define us as Americans and a window into how this country actually works All the while the most coveted rangeland in the West was being threatened by forces more powerful than anything one man could muster dwindling snowpack record drought raging wildfires The Crazies is a Western for a warming planet full of cowboys and billionaires and billionaire cowboys But it s also so much more It s an exquisitely reported ruggedly beautiful elegy for a vanishing way of life and a bighearted inquiry into how you can love a place so much you risk destroying it
