Northlanders Vol. 5: Metal Brian Wood, 2011 Originally published as *Northlanders* 29 36 *Medieval Spaces in Comics* Elizabeth Allyn Woock, 2024-11-12 This book proposes a conceptual framework for analyzing and discussing narrative space in comics Building on Mieke Bal's phenomenological approach to cultural analysis 2002 Gaston Bachelard's *Poetics of Space* 1996 and Geraint D Arcy's use of the *mise en scène* to describe space in the comics format 2020 this book layers in a nuanced approach to the depiction of medieval environments through affect theory and poetics to interrogate the staging of ideas which are associated with the medieval period Considering the action setting and story as well as affect atmosphere and mood medieval space is contextualized as an ethically complex poetic image This book also explores the communicative possibilities of the comics format and seeks to show rather than just tell the methodologies of space in comics based research through illustrating key sections of the text
