The Selected Writings of Pierre Hadot Pierre Hadot, 2020-05-28 This collection of writings from Pierre Hadot 1992 2010 presents for the first time previously unreleased and in some cases untranslated materials from one of the world's most prominent classical philosophers and historians of thought As a passionate proponent of philosophy as a way of life most powerfully communicated in the life of Socrates Pierre Hadot rejuvenated interest in the ancient philosophers and developed a philosophy based on their work which is peculiarly contemporary His radical recasting of philosophy in the West was both provocative and substantial Indeed Michel Foucault cites Pierre Hadot as a major influence on his work This beautifully written lucid collection of writings will not only be of interest to historians classicists and philosophers but also those interested in nourishing as Pierre Hadot himself might have put it a spiritual life

Reading Goethe at Midlife Paul Bishop, 2020-07-13 This book explores the history of the idea of the midlife crisis using the writings of C G Jung and Goethe to investigate its relevance for today Tracing how the ages of humankind became the stages of life in which the midlife crisis represents a pivotal moment Paul Bishop offers a detailed analysis of a paper by Jung on this subject He then shifts the focus to Goethe's interest in Orphic wisdom and one of Goethe's major later poems Primal Words Orphic Urworte Orphisch Using Jungian ideas to explore the psychological implications of this poem Bishop draws on Goethe's own commentary and other background material to uncover its vital message Reading Goethe at Midlife reveals the remarkable symmetry between the ideas and Jung and Goethe Jung's analysis of the stages of life and his advice to heed the call of the self are brought into the conjunction with Goethe's emphasis on the importance of hope showing an underlying continuity of thought and relevance from ancient wisdom via German classicism to analytical psychology At a time when many Jungians are turning to neuroscience to provide an external underpinning for Analytical Psychology this scholarly book is very welcome it returns to psychology's home territory placing Jung firmly in a long cultural tradition Impressively well read in many fields extending from literature and the history of ideas to psychoanalysis and Jungian studies Paul Bishop allows a text by Jung and a late poem by Goethe to mirror and enhance each other demonstrating Jung's intellectual proximity to the tradition of German classicism The wealth of amplifications that Bishop brings to the many themes treated allows us to experience a living reality a continuity of ideas across different times and cultures
