Natural and Human-Induced Hazards and Disasters in Africa Simelane, Thokozani,2019-02-25 Natural and human induced environmental hazards are becoming increasingly prominent The frequency of recorded natural disasters rose markedly during the last century from about 100 per in the years up to 1940 to nearly 2800 during the 1990s Africa is the only continent whose share of reported disasters has increased over the past decade Several factors contribute to Africa s high vulnerability to disasters These include the high rate of population growth food insecurity high levels of poverty inappropriate use of natural resources and failures of policy and institutional frameworks Despite the huge negative impact of natural and human induced hazards on Africa s development little is done to prevent them Disaster prevention contributes to lasting improvement in safety and sustainable livelihoods and is essential as part of integrated disaster management strategies The provision of effective scientific input to policy formulation on various issues related to hazards and disasters is an ambitious undertaking It requires the collaborative effort of the African scientific community to develop comprehensive long term strategies and human capacity building initiatives that will enable science to benefit society This will further require a Building strong research and training institutions in Africa at national and regional levels b Facilitating the exchange of scientific information and sharing of ideas across borders c Strengthening the link between scientific research and policy making d Promoting outreach activities to build resilience to disaster risk and e Tapping the knowledge base of rural and urban communities In this volume the ICSU ROA has brought together selected African scientific researchers to share their views on policy direction for facing challenges linked to natural and human induced hazards The book is intended for policy advisers environmental scientists government officials and members of the general public with a special interest in environmental issues

2012 Global Food Policy Report International Food Policy Research Institute,2013 This 2012 Global Food Policy Report is the second in an annual series that provides an in depth look at major food policy developments and events Initiated in response to resurgent interest in food security the series offers a yearly overview of the food policy developments that have contributed to or hindered progress in food and nutrition security It reviews what happened in food policy and why examines key challenges and opportunities shares new evidence and knowledge and highlights emerging

issues In 2012 world food security remained vulnerable While talk about hunger and malnutrition was plentiful it remains to be seen whether current and past commitments to invest in agriculture food security and nutrition will be met New data from the Food and Agriculture Organization of the United Nations suggest that the world will fall short of achieving the first Millennium Development Goal of halving the prevalence of undernutrition by 2015 Translating commitments into action is thus even more urgent

Food Wars Tim Lang, Michael Heasman, 2015-10-16 In the years since publication of the first edition of *Food Wars* much has happened in the world of food policy This new edition brings these developments fully up to date within the original analytical framework of competing paradigms or worldviews shaping the direction and decision making within food politics and policy The key theme of the importance of integrating human and environmental health has become even more pressing In the first edition the authors set out and brought together the different strands of emerging agendas and competing narratives The second edition retains the same core structure and includes updated examples case studies and the new issues which show how these conflicting tendencies have played out in practice over recent years and what this tells us about the way the global food system is heading Examples of key issues given increased attention include nutrition including the global rise in obesity as well as chronic conditions hunger and under nutrition the environment particularly the challenges of climate change biodiversity loss water stress and food security food industry concentration and market power volatility and uncertainty over food prices and policy responses tensions over food democracy and citizenship social and cultural aspects impacting food and nutrition policies

Resigned Activism, revised edition Anna Lora-Wainwright, 2021-03-09 An examination of the daily grind of living with pollution in rural China and of the varying forms of activism that develop in response Residents of rapidly industrializing rural areas in China live with pollution every day Villagers drink obviously tainted water and breathe visibly dirty air afflicted by a variety of ailments from arthritis to nosebleeds that they ascribe to the effects of industrial pollution In *Resigned Activism* Anna Lora Wainwright explores the daily grind of living with pollution in rural China and the varying forms of activism that develop in response This revised edition offers expanded acknowledgment of the contributions of Lora Wainwright's collaborators in China Lora Wainwright finds that claims of health or environmental damage are politically sensitive and that efforts to seek redress are frustrated by limited access to scientific evidence growing socioeconomic inequalities and complex local realities Villagers feeling powerless often come to accept pollution as part of the environment their activism is tempered by their resignation Drawing on fieldwork done with teams of collaborators Lora Wainwright offers three case studies of resigned activism in rural China examining the experiences of villagers who live with the effects of phosphorous mining and fertilizer production lead and zinc mining and electronic waste processing The book also includes extended summaries of the in depth research carried out by Ajiang Chen and his team in some of China's cancer villages village sized clusters of high cancer incidence These cases make clear the staggering human costs of development and the deeply uneven distribution of costs and benefits that underlie

China's economic power
