Evaluation of the New York City Police Department Firearm Training and Firearm-discharge Review Process Bernard Rostker, 2008 In January 2007 New York City Police Commissioner Raymond W Kelly asked the RAND Corporation to examine the quality and completeness of the New York City Police Department's firearm training program and identify potential improvements in it and in the police department's firearm discharge review process This monograph reports the observations findings and recommendations of that study **Police Practices and Civil Rights in New York City** Mary Frances Berry, 2000-12 On May 26 1999 the U S Commission on Civil Rights conducted a hearing in New York City to examine current police practices police community relations civilian complaints *Police Responses to People with Mental Illnesses* Duncan Chappell, 2014-07-16 According to the World Health Organisation during their lifetime more than one quarter of all individuals will develop one or more mental or behavioural disorders Given prevalence data like this it is not surprising that wherever they reside on the planet many persons suffering from a mental disorder or as is more commonly termed in popular parlance a mental illness are likely to come into contact with police at some stage in their lives Indeed research conducted in a number of countries suggests that about 10 per cent of all community police work involves some form of interaction with a person with a mental illness From a police perspective these encounters are not only frequent but also often sensitive and challenging Despite the difficulties associated with this important aspect of community policing surprisingly scant attention has been given to the development of empirically tested and established best practice approaches to managing police interactions with persons with mental illnesses The literature that does exist is principally derived from North American sources although more recent and interesting developments have been reported in Australia and the United Kingdom The principal aim of *Police Responses to People with Mental Illnesses* is to seek to reduce this gap in the literature by providing an international overview of some of the latest research and policy developments in the field and the challenges still to be confronted in many places in overcoming cultural and associated barriers to protecting the rights of the mentally ill This book was originally published as a special issue of *Police Practice and Research An International Journal* **Police Practices and Civil Rights in New York City** United States Commission on Civil Rights, 2000 [Rape in the United States](#) United States. experience cumulative loss in trauma Doc Dan initiates you into an original cultural competence of how and why his theory works in practice You will leave the journey with a practical sense of how the ecological context and ethological motivation are part of the psychological presentation of almost all officers suffering from complex trauma and loss This guide is crucial reading original in its breadth and scope of perspective on how to intervene with the traumatized officer Toward that end Rudofossi presents his Eco Ethological Existential Analysis of Police and Public Safety Complex Post Traumatic Stress Disorder Emotive affective cognitive behavioral and existential ranges of expression of trauma are vast diverse and often intense in police officers This book delivers applied theory with clinical examples including practical interventions for the clinician and handouts for the officer patient The clinician will be assisted in encountering officers existential suffering from the edge of despair to the precipice of meaning The guide is at once stimulating exciting and very serious in its potential for clinical interventions
