Politics and Power in Early Medieval Europe Hans J. Hummer,2006-01-12 How exactly did political power operate in early medieval Europe Taking Alsace as his focus Hans Hummer offers an intriguing new case study on localised and centralised power and the relationship between the two from c 600 1000 Providing a panoramic survey of the sources from the region which include charters notarial formulas royal instruments and Old High German literature he untangles the networks of monasteries and kin groups which made up the political landscape of Alsace and shows the significance of monastic control in shaping that landscape He also investigates this local structure in light of comparative evidence from

other regions He tracks the emergence of the distinctive local order during the seventh century to its eventual decline in the late tenth century in the face of radical monastic reform Highly original and well balanced this 2006 work is of interest to all students of medieval political structures The Trow (formerly Wilson's) Copartnership and Corporation Directory of New York City ,1908 Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971 New York Public Library.
