

Q.P. Code : 15321

**Third Semester B.C.A. Degree Examination,
November/December 2019**

(CBCS Scheme – Freshers & Repeaters)

Computer Science

Paper BCA 303 T – OBJECT ORIENTED PROGRAMMING USING C++

Time : 3 Hours]

[Max. Marks : 70

Instructions to Candidates : Answer all Sections.

SECTION – A

Answer any **TEN** questions. Each question carries **2** marks : **(10 × 2 = 20)**

1. Write any two differences between C and C++.
2. Define Token, Variable.
3. What is access specifiers? Mention its types.
4. Write the difference between calloc() and malloc().
5. What are actual and formal parameters?
6. Define class and object.
7. Define Destructor.
8. Define operator overloading.
9. What is Inheritance in C++?
10. Define this operator.
11. What is an Abstract Class?
12. What are input and output streams?

Object Oriented Programming In Bca Question Papers

Harry Chaudhary.

Object Oriented Programming In Bca Question Papers:

IGNOU BCA Object-Oriented Technologies and Java Programming Previous Year Solved Papers MCS 024 Manish Soni, 2024-11-13 Over the past decade academic progress and technological innovations have significantly reshaped the educational landscape with Java programming emerging as a cornerstone in computer science and software development As programming continues to play a vital role in shaping modern technologies mastering Java has become essential for students aiming to excel in the IT industry In this transformative journey the Indira Gandhi National Open University IGNOU has consistently empowered learners by offering accessible and high quality education In response to the growing demand for reliable academic support we are pleased to present IGNOU BCA Object Oriented Technologies and Java Programming Previous Year Solved Papers MCS 024 a carefully curated compilation designed to support students in strengthening their understanding of Java and object oriented programming concepts This book brings together solved question papers from the past ten years offering readers not only a window into real exam patterns and expectations but also the opportunity to enhance their problem solving techniques and application based understanding Developed through the collaborative efforts of experienced educators and industry professionals the solutions reflect a balance of theoretical knowledge and practical insight Whether used for exam preparation self assessment or concept revision this volume aims to be a dependable academic companion We believe that by working through these solved papers learners will gain the confidence and clarity needed to approach Java programming with competence and enthusiasm We extend our sincere thanks to the educators students and reviewers who contributed to the making of this book May it serve as a valuable guide for all those embarking on their journey through the world of object oriented technologies and Java programming

Object oriented programming with C++ Mahesh Bhavde, Sunil Patekar, 2012 This fully revised and indispensable edition of Object Oriented Programming with C provides a sound appreciation of the fundamentals and syntax of the language as well as of various concepts and their applicability in real life problems Emphasis has been laid on the reusability of code in object oriented programming and how the concepts of class objects inheritance polymorphism friend functions and operator overloading are all geared to make the development and maintenance of applications easy convenient and economical

Object-Oriented C++ Programming Hirday Narayan Yadav, 2008

IGNOU BCA System Analysis and Design Previous Year Solved Papers MCS 014 Manish Soni, 2024-11-13 System Analysis and Design is a cornerstone in the field of information systems serving as the blueprint for building reliable efficient and scalable software solutions As organizations increasingly adopt complex systems to streamline their operations the need for professionals proficient in analyzing requirements and designing structured solutions has become more crucial than ever The Indira Gandhi National Open University IGNOU has recognized the significance of this domain by incorporating it as a core subject in the BCA curriculum enabling students to gain both theoretical insight and practical competence In alignment with this academic vision we present IGNOU BCA System Analysis

and Design Previous Year Solved Papers MCS 014 a comprehensive collection of solved question papers designed to assist students in mastering this essential subject This book aims to offer a valuable resource for exam preparation by enabling learners to practice with real past papers Solving previous years papers allows students to familiarize themselves with the exam pattern question types and difficulty levels while also encouraging them to apply theoretical concepts to practical scenarios Each solution in this book has been crafted with clarity and accuracy to support students in enhancing their understanding and analytical abilities Covering critical areas such as the System Development Life Cycle SDLC requirement gathering system modeling design methodologies implementation strategies and system maintenance this book ensures thorough syllabus coverage It not only prepares students for their exams but also builds a solid foundation for future roles in software development and IT project management We sincerely thank the students educators and contributors who helped shape this volume with their invaluable insights and feedback We hope this book will serve as a trusted guide in your academic journey and a stepping stone to a successful career in system analysis and design

MCS-024: Object Oriented Technologies and Java Programming Dr. DK Sukhani, 2018-11-19 This book is useful for IGNOU BCA MCA students A perusal of past questions papers gives an idea of the type of questions asked the paper pattern and so on it is for this benefit we provide these IGNOU MCS 024 Introduction to Database Management Systems Notes Students are advised to refer these solutions in conjunction with their reference books It will help you to improve your exam preparations It comprises of details about Introduction to object oriented software engineering Advanced Structured Modeling Object Oriented Concepts and Project Management Object oriented design and testing Advanced topic in S W engineering Multiple Choice Questions

IGNOU PGDCA MCS 206 Object Oriented Programming using Java Previous Years Unsolved Papers Manish Soni, 2024-11-13 Welcome to the comprehensive collection of solved papers for the Post Graduate Diploma in Computer Applications PGDCA program offered by the Indira Gandhi National Open University IGNOU This book is meticulously crafted to assist students in their preparation for the Object Oriented Programming using Java examination a fundamental and integral part of the PGDCA curriculum As technology continues to evolve Java remains a cornerstone of computer science playing a pivotal role in software development across diverse platforms Recognizing the significance of a strong foundation in Java programming this compilation brings together years of previous exam papers with detailed solutions providing a valuable resource for students to enhance their understanding and excel in their academic pursuits Each solved paper within this book is designed to serve as more than just an answer key Beyond the correct responses you will find thorough explanations strategic insights and helpful tips aimed at aiding your comprehension of Java concepts Whether you are a novice programmer or a seasoned learner this collection offers a structured approach to mastering Object Oriented Programming using Java covering topics ranging from basic syntax to advanced features The inclusion of previous years papers ensures that you are well acquainted with the examination patterns and can approach your assessments with

confidence As you embark on your journey through the PGDCA program we hope this book proves to be a valuable companion aiding you in your quest for proficiency in Java It is our sincere desire that this resource contributes significantly to your academic success fostering a deeper appreciation for Java programming and its applications in the dynamic world of computer science Best of luck in your studies and may this book serve as a stepping stone towards a rewarding and fulfilling career in the realm of computer applications

IGNOU BCA Introduction to Algorithm Design Previous Year Unsolved Papers BCS 042 Manish Soni,2024-11-13 The evolution of computer science has elevated algorithm design as a cornerstone of problem solving in both academic research and industry practice As the complexity of computational challenges continues to grow mastering algorithmic thinking has become essential for anyone pursuing a career in technology or aiming for academic excellence The aim of this book *Introduction to Algorithm Design Previous Years Unsolved Papers* is to provide learners with a platform to enhance their analytical and problem solving capabilities through a curated selection of unsolved questions from previous years examinations This book emphasizes a hands on approach inviting readers to engage directly with intricate problems spanning core algorithmic topics such as sorting searching dynamic programming graph theory and more By grappling with these questions learners develop deeper insights into algorithm efficiency optimization and application We have designed this book to serve both undergraduate students seeking a deeper understanding of algorithms and professionals preparing for competitive exams or technical interviews Each problem has been carefully selected to represent a diverse range of difficulty levels offering a comprehensive challenge for learners at any stage We hope this book becomes an invaluable tool in your journey towards mastering algorithm design and encourages you to approach complex computational problems with confidence and precision

IGNOU BCA Computer Basics and PC Software Previous Year Unsolved Papers BCS 011 Manish Soni,2024-11-13 In today s digital age *IGNOU BCA Computer Basics and PC Software Previous Year Unsolved Papers BCS 011* a solid understanding of computer basics and proficiency in PC software is not just an asset but a necessity The world is increasingly becoming more connected and computers are at the heart of this technological revolution The course *BCS 011 Computer Basics and PC Software* offered by IGNOU is designed to equip students with the foundational knowledge required to navigate and excel in this digital landscape This book *IGNOU BCS 011 Computer Basics and PC Software Previous Years Unsolved Papers* serves as a comprehensive resource aimed at helping students prepare effectively for their exams by providing a collection of carefully selected unsolved papers from previous years The objective of this book is to offer students an opportunity to test their knowledge and understanding of the subject matter By working through these unsolved papers students can assess their grasp of key concepts identify areas where they need further study and develop the problem solving skills necessary for success in their exams The unsolved papers included in this book cover a broad range of topics from the fundamentals of computing to more specific software applications providing a well rounded preparation for the course

IT Interview Guide for Freshers Sameer S Paradkar,2019-09-17

Gold mine of critical IT interview Q A for freshers

Description Are you a fresher looking to pass your first IT interview and get your hands on that dream job of yours This is the best choice for you to make By emphasizing on the importance of sufficient preparation this book will help aspirants prepare for the IT interview process With this practical hands on guide readers will not only learn industry standard IT interview practices and tips but will also get curated situation specific and timeline specific interview preparation techniques that will help them take a leap ahead of others in the queue This book includes sample questions asked by top IT companies while hiring and the readers can expect a similar set of questions in their interview The book also offers hints on solving them as you move ahead and each hint is customized similar to how your actual interview is likely to progress Whether you are planning to prepare for an interview through a semester for six months or preparing for just a weekend coding competition this book will have all the necessary information that will lead you to your first successful job This book is divided into numerous chapters including the topics that deal with various aspects and stages of the entire interview process It presents an exhaustive question bank with special emphasis on practical scenarios and business cases The book describes the qualities an employer looks for in a potential employee and will also help improve the aspirant s understanding of the interview process The book begins with oft asked sample interview questions on top data structures and operating systems Then it dives into the concepts and principles of OOPs Next it presents various interview questions on C C Java programming along with database management systems The book will then take you through the methodologies and processes of validation and testing along with DevOps Agile Scrum APIs Micro services and SOA Finally the book ends with a set of HR process interview questions covering the best practices to answer interview questions

KEY FEATURES Understand various best practices principles concepts and guidelines Common pitfalls to avoid during interviews Trending programming languages including Python and R Tools best practices techniques and processes Methodologies and processes for DevOps microarchitecture SDLC APIs SOA integration Best practices and programming standards Holistic view of key concepts principles and best practices

WHAT WILL YOU LEARN This is a comprehensive book on IT interviews for aspirants with profiles ranging from freshers to experienced up to four years experience and with different backgrounds such as BE BCA BSc BCom and MCA This reference guide for freshers has a double advantage It will guide them for their interview and discussions It will help interview panels in selecting candidates for their practice units while bringing in standardization in the selection process This book has more than five hundred questions in eight domains including a chapter on trending programming languages Python and R It presents an exhaustive question bank with special emphasis on practical scenarios and business cases It covers all the key domains including data structures OOPs DBMS OS methodologies and processes programming languages and digital technologies The book includes a section on frameworks and methodologies for quality assurance and testing DevOps Agile Scrum APIs microservices and SOA Based on our experience the assurance is that at least 80% of the content will be discussed during a typical interview The book also has a section on

pre and post interview preparations The coverage is extensive in terms of depth and breadth of domains addressed in the book But it can be referred to for selective reading as per the choice of domain The book has more than a hundred diagrams depicting various scenarios models and methodologies WHO THIS BOOK IS FOR Students IT and other computer science streams Freshers from IT and computer science institutes Programmers Software engineers Developers 0 4 years experience Interview panels Table of Contents 1 Introduction 2 Written Test Group Discussion 3 Interview Preparations 4 Data Structure Algorithms 5 Operating System 6 Object oriented Programming OOP 7 C C Programming 8 Java Programming 9 Database Management System DBMS 10 Trending Programming Languages Python R 11 Methodologies Processes 12 HR Round

Advanced Java Manish Soni,2024-11-13 Welcome to Advanced Java Java has evolved significantly since its inception becoming one of the most popular programming languages for a good reason This book aims to take you beyond the basics of Java introducing advanced concepts techniques and tools to help you become a proficient Java developer Whether you re new to Java or an experienced developer looking to enhance your skills this book will be your guide We will cover a diverse range of topics from advanced object oriented programming and concurrency to database connectivity web development and modern Java frameworks Our objective is to do more than just teach you how to write Java code we want to help you become a Java craftsman or craftswoman capable of creating complex efficient and elegant software solutions You ll gain the knowledge and practical experience needed to confidently address real world challenges The journey begins with advanced object oriented programming principles and design patterns where you ll learn to design your software for scalability maintainability and flexibility using industry standard practices Concurrency is a critical aspect of modern software development and this book will delve into multithreading synchronization and concurrent data structures providing you with the tools to write high performance parallelized applications Mastering database connectivity is essential for any Java developer You ll learn to work with databases including advanced SQL queries JDBC and connection pooling enabling you to build robust data driven applications Web development is another fundamental component of modern Java programming You ll explore technologies like Servlets JSP and Java Server Faces JSF and we ll introduce the Spring Framework a comprehensive toolset for developing enterprise level applications Throughout the book we ll emphasize best practices coding standards and design guidelines to help you write not only functional but also maintainable and elegant code You ll learn how to leverage tools and libraries to enhance your productivity and streamline your development process As you embark on this journey into Advanced Java remember that mastering any craft requires time and practice Java is a versatile and powerful tool and with dedication and persistence you can unlock its full potential We encourage you to engage with the hands on exercises and embrace the challenges that advanced Java programming presents By the end of this book we hope you ll have expanded not only your technical skills but also your mindset as a software developer **Core Java** Manish Soni,2024-11-13 Core Java is the backbone of modern software development and mastering its core concepts is essential for

any aspiring programmer whether you're just starting your journey or seeking to deepen your knowledge. This book, *Core Java*, is designed to be your comprehensive guide to the fundamental principles of Java programming. In the ever-evolving landscape of technology, Java remains a constant. Its versatility and platform independence have made it the language of choice for a wide range of applications, from mobile apps to web services and enterprise systems. Whether you're a student, a professional developer, or an enthusiast eager to learn, this book is crafted to meet your needs. Our journey through the world of Java begins with the basics. We'll guide you through setting up your development environment, writing your first lines of code, and understanding the syntax that underpins the language. From there, we'll delve into the rich world of data types, control structures, and object-oriented programming, providing a solid foundation upon which to build your Java expertise. As we progress, you'll explore advanced topics such as multithreading, I/O, and exception handling, gaining the skills necessary to develop robust and efficient Java applications. We'll demystify object-oriented design principles and guide you in applying them to your projects. Java isn't just about syntax; it's about building real-world applications. You'll learn how to work with databases, networked systems, and graphical user interfaces, giving you the tools to create software that can truly make an impact. Throughout this book, you'll find practical examples and hands-on exercises to reinforce your understanding and hone your programming skills. Java is a language of practice, and our aim is to equip you with the knowledge and experience needed to tackle real-world challenges confidently.

Readings in Object-Oriented Database Systems Stanley B.

Zdonik, David Maier, 1990. This comprehensive collection is a survey of research in object-oriented databases, offering a substantive overview of the field. Section introductions and over 40 research papers are presented in their original scope and detail. The balanced selection of articles presents a confluence of ideas from both the language and database research communities that have contributed to the object-oriented paradigm. The editors develop a general definition and model for object-oriented databases and relate significant research efforts to this framework. Further, the collection explores the fundamental notions behind object-oriented databases: semantic data models, implementation of object-oriented systems, transaction processing interfaces, and related approaches. Research and theory are balanced by applications to CAD systems, programming environments, and office information systems.

COMPUTER CONCEPTS AND C PROGRAMMING ANAMI,

BASAVARAJ S., ANGADI, SHANMUKHAPPA A., MANVI, SUNILKUMAR S., 2010-05. This second edition of the book allows students to undertake a complete study of C, including the fundamental concepts, programming, problem solving, and the data structures. The book is also structured to provide a general introduction to computer concepts before undertaking a detailed treatment of the C programming language. To that end, the book is eminently suitable for the first-year engineering students of all branches as per the prescribed syllabus of several universities for a course on Computer Concepts and C Programming. Besides, the book fully caters to the needs of the students pursuing undergraduate and postgraduate courses in general streams such as computer science, information science, computer applications, BCA and MCA, and information technology.

Written in an engaging style the book builds the students C programming skills by using a wide variety of easy to understand examples illustrating along the way the development of programming constructs and logic for writing high quality programs The book also develops the concepts and theory of data structures in C such as files pointers structures and unions using innumerable examples The worked examples in the form of programs and program segments are illustrated with outputs of sample runs A chapter on Computer Graphics is provided to give the students a feel of how C language is used for display of graphics and animation An exclusive chapter on advanced concepts such as enumerated data types bitwise operators and storage classes is included in sufficient detail to help students progress to writing practical and real world applications Besides a new chapter presents a C quiz comprising of 100 objective type questions that help readers to test their C skills

Object Oriented Programming In Bca Question Papers Introduction

Object Oriented Programming In Bca Question Papers Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Object Oriented Programming In Bca Question Papers Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Object Oriented Programming In Bca Question Papers : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Object Oriented Programming In Bca Question Papers : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Object Oriented Programming In Bca Question Papers Offers a diverse range of free eBooks across various genres. Object Oriented Programming In Bca Question Papers Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Object Oriented Programming In Bca Question Papers Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Object Oriented Programming In Bca Question Papers, especially related to Object Oriented Programming In Bca Question Papers, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Object Oriented Programming In Bca Question Papers, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Object Oriented Programming In Bca Question Papers books or magazines might include. Look for these in online stores or libraries. Remember that while Object Oriented Programming In Bca Question Papers, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Object Oriented Programming In Bca Question Papers eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Object Oriented Programming In Bca Question Papers full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Object Oriented Programming In Bca Question Papers eBooks, including some popular titles.

FAQs About Object Oriented Programming In Bca Question Papers Books

1. Where can I buy Object Oriented Programming In Bca Question Papers books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Object Oriented Programming In Bca Question Papers book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Object Oriented Programming In Bca Question Papers books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Object Oriented Programming In Bca Question Papers audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Object Oriented Programming In Bca Question Papers books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
