Performing Artists and Precarity Philip Hancock, Melissa Tyler, 2024-10-16 This open access book focuses on the distinctive experiences of freelance and self employed live performers in the UK s live entertainment industries It provides an in depth account of their working lives during COVID 19 showing how their experiences of the pandemic provide insight into the different types of precarity shaping what it means to be a live performer A growing body of academic research has focused on the meaning experience and nature of precarity for those working in the cultural and creative sector highlighting the problem of socio economic precarity This book demonstrates how a constant struggle for recognition also shapes the contours and lived experiences of live performance work It emphasizes how combined with affective and socio economic forms of precarity this recognitive precarity creates a distinctive and challenging set of working conditions Drawing on original data generated through a national survey of self employed and freelance performers across the live entertainment industries combined with insights derived from a series of in depth semi structured interviews this book presents an empirically rich insight into the struggles and opportunities presented by the multiple forms of precarity that the pandemic brought to the fore It gives voice to a precarious workforce that remains integral to one of the UK s most economically buoyant sectors but whose experiences are often marginalized in academic research and in policy and practice It will therefore offer a unique insight for both students and scholars of work and employment and for those working in the cultural and creative sector into the distinctive nature of work as a freelance or self employed live performer

Phenomenology of Community Activism Nora Amath, 2015-12-01 The Phenomenology of Community Activism explores how MCSOs have responded to the challenges of the Australian socio political context the perceived impact of these

experiences and how Islam is manifested within the contexts of these experiences In contrast to much publicised jihadist and radical groups MCSOs are far more representative of Muslim communities and integral to the long term position of Islam in Australia This book offers researchers policy makers and those engaged in community development a rich understanding of Muslim community building engagement and agency This book reveals what will be surprising to some that there are many and varied MCSOs in Australia that in many ways they are similar to other civil society organisations serve similar purposes and encounter similar issues This is a very important datum to stand against the prejudices about Muslims and their organisations Professor Emeritus Gary Bouma Emeritus Professor of Sociology at Monash University UNESCO Chair in Intercultural and Interreligious Relations Asia Pacific Islamic Studies Series Volume 19 *Why Isn't Government Policy More Preventive?* Paul Cairney, Emily St Denny, 2020-01-09 If prevention is better than cure why isn't policy more preventive Policymakers only have the ability to pay attention to and influence a tiny proportion of their responsibilities and they engage in a policymaking environment of which they have limited understanding and even less control This simple insight helps explain the gap between stated policymaker expectations and actual policy outcomes Why Isn't Government Policy more Preventive uses these insights to produce new empirical studies of wicked problems with practical lessons The authors find that the UK and Scottish governments both use a simple idiom prevention is better than cure to sell a package of profound changes to policy and policymaking Taken at face value this focus on prevention policy seems like an idea whose time has come Yet prevention is too ambiguous until governments give it meaning No government has found a way to turn this vague aim into a set of detailed consistent and defensible policies This book examines what happens when governments make commitments without knowing how to deliver them It compares their policymaking contexts roles and responsibilities policy styles language commitments and outcomes in several cross cutting policy areas including health families justice and employability to make sense of their experiences The book uses multiple insights from policy theory to help research and analyse the results The results help policymakers reflect on how to avoid a cycle of optimism and despair when trying to solve problems that their predecessors did not **Canadian Journal of Fisheries and Aquatic Sciences**, 2014

Pandora's Gamble Alison Young, 2023-04-25 Named to Kirkus Reviews Best Books of 2023 A remarkable book The New York Times This fearless deeply reported book about laboratory accidents asks the haunting question some elite scientists don't want the public to entertain Did the COVID 19 pandemic start with a lab leak in Wuhan China This is an obvious question Yet there's been an extraordinary effort by government officials in China as well as leading scientific experts in the United States and around the world to shut down any investigation or discussion of the lab leak theory In private however some of the world's elite scientists have seen a lab accident as a very real and horrifying possibility They know what the public doesn't Lab accidents happen with shocking frequency Even at the world's best run labs That's among the revelations from Alison Young the award winning investigative reporter who has spent nearly 15 years uncovering shocking safety

breaches at prestigious U S laboratories for USA Today and other respected news outlets In Pandora s Gamble Young goes deep into the troubling history and enormous risks of leaks and accidents at scientific labs She takes readers on a riveting journey around the world to some of the worst lab mishaps in history including the largely unknown stories of the lab workers at the U S Army s Camp Detrick who suffered devastating infections at alarming rates during World War II And her groundbreaking reporting exposes for the first time disturbing new details about recent accidents at prestigious laboratories and the alarming gaps in government oversight that put all of us at risk Sourced through meticulous reporting and exclusive interviews with key players including Dr Anthony Fauci former CDC Director Tom Frieden and others Young s examination reveals that the only thing rare about lab accidents is the public rarely finds out about them Because when accidents happen powerful people and institutions often work hard to keep the information secret
