Aptitude Paper I Chapter wise Solved Papers **Forgotten** Marlene Goldman, 2017-11-07 Since the 1860s long before scientists put a name to Alzheimer's disease Canadian authors have been writing about age related dementia Originally most of these stories were elegies designed to offer readers consolation Over time they evolved into narratives of gothic horror in which the illness is presented not as a normal consequence of aging but as an apocalyptic transformation Weaving together scientific cultural and aesthetic depictions of dementia and Alzheimer's disease Forgotten asserts that the only crisis associated with Canada's aging population is one of misunderstanding Revealing that turning illness into something monstrous can have dangerous consequences Marlene Goldman seeks to identify the political and social influences that have led to the gothic disease model and its effects on society Examining the works of authors such as Alice Munro Michael Ignatieff Jane Rule and Caroline Adderson alongside news stories and medical and historical discussions of Alzheimer's disease Goldman provides an alternative person centred perspective to the experiences of aging and age related dementia Deconstructing the myths that have transformed cognitive decline into a corrosive fantasy Forgotten establishes the pivotal role that fictional and non fictional narratives play in cultural interpretations of disease The Schenley Experiment Jake Oresick, 2017-04-14 The Schenley Experiment is the story of Pittsburgh's first public high school a social incubator in a largely segregated city that was highly even improbably successful throughout its 156 year existence Established in 1855 as Central High School and reorganized in 1916 Schenley High School was a model of innovative public education and an ongoing experiment in diversity Its graduates include Andy Warhol actor Bill Nunn and jazz virtuoso Earl Hines and its
