Histories of Everyday Life is a study of the production and consumption of popular social history in mid twentieth century Britain It explores how non academic historians many of them women developed a new breed of social history after the First World War identified as the history of everyday life The history of everyday life was a pedagogical construct based on the perceived educational needs of the new mass democracy that emerged after 1918 It was popularized to ordinary people in educational settings through books in classrooms and museums and on BBC radio After tracing its development and dissemination between the 1920s and the 1960s this book argues that history of everyday life declined in the 1970s not because academics invented an alternative new social history but because bottom up social change rendered this form of popular social history untenable in the changing context of mass education *Histories of Everyday Life* ultimately uses the subject of history to demonstrate how profoundly the advent of mass education shaped popular culture in Britain after 1918 arguing that we should see the twentieth century as Britain s educational century **A Mountain to Climb** Audrey Smalling,2015-01-05 She had A Mountain To Climb and she reached the summit This is her story in her own words of that climb and a tribute to her undaunted spirit ABOUT THE AUTHOR Born in Kingston Jamaica in 1953 Audrey Smalling came to England at the age of five and a half She grew into a competitive athlete a keen dancer and acrobat being earmarked as potential for the Royal Ballet School of Dancing In January 1973 just after her 19th birthday she was in a serious car crash which left her paralysed from a C5 6 spinal cord injury to her neck When she was finally discharged from the Orthopaedic Hospital in Oswestry and over the following years she regained her feisty personality and became an advocate for disability and people who needed help Her fight continued over many years to provoke action from authority for those affected by disabilities This was pursued under extremely difficult and challenging conditions Schooling and Travelling Communities Dave Cudworth,2018-06-12 This book calls for a re thinking of educational provision for Gypsy Traveller communities Despite having been recognised by the government and educational providers for over fifty years underachievement of children from Gypsy Traveller communities persists Rather than focusing specifically on access attendance and attainment the author provides a structural analysis of the cultural tensions that often exist between Nomadic communities and current school provision based on the interests and values of Sedentarism The author uses spatial theory as a base upon which to build knowledge and understanding of the educational exclusion of children from Gypsy Traveller communities highlighting the social role that space plays within schools This innovative book will be of interest and value for students and scholars interested in not only education and Gypsy Traveller communities but education for minority communities more widely
