

Comprehension & Language Practice Rhino Poaching - Grade 9 EL

QUESTION 1: COMPREHENSION

- In 2015, poachers in South Africa killed 33 endangered rhinos. Despite a price bounty awarded to kill poaching, that number has soared since then. Last year, 1,318 rhinos were killed for their horns, which are usually harvested while the animal is still alive.
- Conservation groups Protest has started (held trials of) the first time Anti-Poaching Intelligence Office (APPIO) to prevent poaching.
- The APPIO tracking collar is combined with a heart rate monitor and video camera. If a poacher attempts to steal a rhino with a knife, the device alerts police and sends images of the poacher.
- "We just don't know where or when poachers might strike," said Steve Pender, National Coordinator for the Eastern Cape Parks and Tourism Agency, South Africa. "We effectively spend these vast landscapes requires no entry." And even then, poachers could just a way through. They are well equipped and organized, and they will just give it any defense because the reward is so high."
- APPIO researchers will have data to anti-poaching police. Dr Paul O'Hanlon, wildlife advisor for Protest, says, "The heart monitor on the device triggers the alarm the second heart rate rises or falls, the video camera captures why, and it's supposed to be a tracking aid, the APPIO confirms the location... we can see how the more the landscape is made in this manner, leaving poachers no time to harvest the valuable parts of the animal or to escape."
- As part of research, Protest recently completed (held trials with) the device, releasing rhino's eye rate (images) from the video camera. To install the device, they used (led and) interaction with rhinos. They have to extend the programme to include elephants and tigers, with a fully functional control centre operational as early as next year.
- With trial the (has recently) killed in Zimbabwe, the plight of endangered species is in the public eye more than ever. Protest calls on lawmakers for APPIO to be implemented.
- Steve Pender, Protest founder, says, "The idea has to be turned and the Protest APPIO can do is the only thing leading for protection over the next decade's poaching trail."
