*Can the Work Programme work for all user groups?* Great Britain: Parliament: House of Commons: Work and Pensions Committee, 2013-05-21 The Work Programme has the potential to work well for relatively mainstream jobseekers but is unlikely to reach the most disadvantaged long term unemployed people The Government spent some 248 million less on the Work Programme than anticipated in 2012 13 due to providers under performance in a payment by results programme In the short term the Committee urges the Government to use the unspent Work Programme budget to extend proven alternative provision for disadvantaged jobseekers such as the Work Choice programme for disabled people extend and continue to promote Access to Work to help disabled people overcome the practical difficulties of starting a job and provide further support for individuals who complete their two year attachment to the Work Programme without finding sustained employment The Committee also highlights that people with the severest barriers to work such as homelessness and serious drug and alcohol problems are often not ready for the Work Programme and need support first to prepare for it It recommends that DWP pilots ways of providing this additional support to prepare these groups for effective engagement with the Work Programme before they are referred In the longer term the Committee calls on DWP to consider moving away from the current differential pricing model which is based on the type of benefit a

participant is claiming to a much more individualised needs based model The Report recommends that DWP should assess how a needs based pricing structure could determine the appropriate level of up front funding and the types of services required to support individual jobseekers

The Routledge International Handbook of the Crimes of the Powerful Gregg Barak,2015-06-05 Across the world most people are well aware of ordinary criminal harms to person and property Often committed by the powerless and poor these individualized crimes are catalogued in the statistics collected annually by the FBI and by similar agencies in other developed nations In contrast the more harmful and systemic forms of injury to person and property committed by powerful and wealthy individuals groups and national states are neither calculated by governmental agencies nor annually reported by the mass media As a result most citizens of the world are unaware of the routinized crimes of the powerful even though they are more likely to experience harms and injuries from these types of organized offenses than they are from the atomized offenses of the powerless Research on the crimes of the powerful brings together several areas of criminological focus involving organizational and institutional networks of powerful people that commit crimes against workers marketplaces taxpayers and political systems as well as acts of torture terrorism and genocide This international handbook offers a comprehensive authoritative and structural synthesis of these interrelated topics of criminological concern It also explains why the crimes of the powerful are so difficult to control Edited by internationally acclaimed criminologist Gregg Barak this book reflects the state of the art of scholarly research covering all the key areas including corporate global environmental and state crimes The handbook is a perfect resource for students and researchers engaged with explaining and controlling the crimes of the powerful domestically and internationally
