Faith in Schools Amy Stambach, 2009-12-07 American Evangelicals have long considered Africa a welcoming place for joining faith with social action but their work overseas is often ambivalently received Even among East African Christians who share missionaries religious beliefs understandings vary over the promises and pitfalls of American Evangelical involvement in public life and schools In this first hand account Amy Stambach examines missionary involvement in East Africa from the perspectives of both Americans and East Africans While Evangelicals frame their work in terms of spreading Christianity critics see it as destroying traditional culture Challenging assumptions on both sides this work reveals a complex and ever evolving exchange between Christian college campuses in the U S where missionaries train and schools in Kenya Uganda and Tanzania Providing real insight into the lives of school children in East Africa this book charts a new course for understanding the goals on both sides and the global connections forged in the name of faith **Dong Zhongshu, a**

'Confucian' Heritage and the Chunqiu fanlu Michael Loewe, 2011-04-11 Intellectual developments of the Western Han dynasty 202 BCE 9 CE have been studied hitherto on the assumptions that a system described as Confucianism acquired paramount importance and that Dong Zhongshu ca 198 to ca 107 BCE had been responsible for formulating its principles In challenging these assumptions this book examines Dong career and reputation and his supposed authorship of the Chunqiu fanlu for long subject to question It is concluded that while some parts of that text may well represent the teachings that Dong Zhongshu promoted some may perhaps date from as late as 79 CE still others bear an affinity to writings which banned as being suspect or potentially subversive survive in no more than fragmentary form *The Institutional Foundations of*

Savishinsky, 2018-08-06 The topic of

retirement becomes increasingly compelling as the U S population ages It s easy to find books about how to plan financially for those years after careers end but *Breaking the Watch* focuses on the many ways of creating a life not just making a living as a retired person This book follows women and men from a rural American community as they approach and experience the first years of retirement Joel Savishinsky focuses on the efforts people make to find meaning in a stage of life American culture often views in a confused or disdainful way In conversations and stories 13 men and 13 women demonstrate a deep

commitment to defining their own retirement They bring to their mature years a diversity of backgrounds interests and responsibilities They include former teachers librarians doctors farmers lawyers bankers mail carriers and secretaries Some are married others divorced or single many have children and grandchildren but some have neither Their finances run the gamut from the modest to the munificent while their health ranges from robust to disabled From an examination of the rites of passage that marked their exit from full time work Breaking the Watch moves on to consider how to plan appropriately for retirement renegotiate ties to friends family and community and create a sense of passion be it for tai chi travel painting or politics that will drive a new sense of purpose These intimate glimpses into real lives allow a rare understanding of the retirement process
