Resources in Education ,1996 **Research Papers** William Coyle,1996-08 From the Heart of a Teacher Diana Hilton,2010-12-03 This book is an account of a school year in the life of an inner city teacher It is a healthy look at schools teaching methods and successful ideas to incorporate into the classroom These methods were formed over many years by observing teaching loving and improving the lives of children Experience in the inner city is the setting of this book however the events chronicled in its pages happened compositely throughout the authors career It is fiction based on real life happenings All accounts are typical of her teaching style and the successful methods she presents Many of the techniques she employs are innovative unusual and encouraging It will motivate and excite the reader as well as engage them in an interesting account of a school year in an area where poverty is prevalent and children are very needy The school room is a place where children grow and change and become delighted with learning Without a doubt this book will instill a desire for everyone to really examine how they can effect the lives of all of the children in which they come in contact Above all it is a good story about children and their lives and the problems that can so often alter their road to success The seeds of a life of crime can begin in grade school and society should guard and defend all of the ideals that form its citizens The story highlights research to back the many methods she has found successful over time and makes the book especially significant for President Obama s Race to the Top Agenda Hard Right Turn Jerry Carrier,2015-10-01 In America even the left is right of center just how far right is subject to debate There really is no longer an American left as it has been systematically destroyed This rightward drift is seen in historic events like the Red Scare of the 1920s where thousands of innocent Russian and Jewish Americans were imprisoned and deported by J Edgar Hoover under President Wilson There were plots like the secret financing of Hitler s rise to power by the Rockefeller Harriman and Bush Walker families managed by the Dulles Brothers There was the Businessmen and Banker s Plot to overthrow Roosevelt and install a fascist government in the United

States just before WWII There was the OSS CIA cooperation with the Catholic Church in the Ratlines to hide and bring Nazi war criminals into the United States American phobias against communism socialism and the left have allowed those on the right to suppress and eliminate the left and to harass imprison or assassinate its leaders since 1848 The US government has eliminated and assassinated the left and with no counterbalance the country veers further and further to the right In this book Jerry Carrier seeks to define Left as it applies in the United States He traces some of the original influences and provides a succinct history of the American left including the McCarthy witch hunts and the xenophobia of the China Lobby That history includes illegal CIA and FBI operations to stop the left civil rights anti war Latino Asian Native American gay and women s movements It includes the US intelligence service s long ties to the Mafia and the Unione Corse the French Mafia and their illegal drug activities It includes the assassinations of JFK RFK and MLK It includes the treasonous acts of Nixon and Kissinger to win in 1968 by Reagan and Bush in 1980 and the buying of elections by the Koch Brothers From Rousseau to Obama this book gives the rise and fall of the American left Victims includes Mother Jones Eugene Debs Big Bill Haywood Gus Hall and Angela Davis It includes the assassinations of foreign leaders like Patrice Lumumba and even UN Secretary General Dag Hammarskjold and attempts on Sukarno and Castro as well as dozens of US inspired coups
