- Splash Proof
- Easy to use

LCD Screen

- F Function Indicator
- L Keypad Lock Indicator
- S Scan Function Set
- B Narrow Band Indicator
- TX TX/RX Indicator
- V VOX Indicator
- B Battery Low Indicator VOX level
- L Power Low power Indicator

Basic Transceiver Operation

Turning Transceiver On/Off

1. Turn the Power Switch clockwise to turn ON the radio.
2. Counter-clockwise to turn off.

Setting Audio Volume

Turn the Volume control clockwise to increase the audio output level and counter-clockwise to decrease audio output level.

Selecting a Channel

Channel number can be directly entered by the numerical keypad or by using the Channel Control Dial on top of the radio. If using the numerical keypad, enter a '0' first, for any numbers under 10.

Set Squelch Level (F + 480)

1. Press F + 480 to access set squelch level (0-6).
2. Rotate Channel Control Dial to select level and confirm by pressing the F key quickly, to save.

The higher the squelch level, the more interference will be cut out, and so will the weaker signals. Level 2 to 4 are good defaults.

Adjusting Power Output level
Pressing F + 1268 will change the output power from High to Low.

Channel Scan

You can scan as many or as few channels as you like by using the F + S keys.

1. By pressing F + S on a particular channel, an 'A' will be shown on the LCD Screen. This 'A' indicates that this channel is now in the memory for scanning.
2. By pressing the S key, radio will scan those channels which are indicated by the 'A'.
3. To stop scan, press any key.
4. Scanning will stop on a busy channel for 5 seconds, before scanning again, unless stopped or channel remains busy.

Keypad Lock Key

1. Lock keypad by pressing L for 1 sec. Unlock the same way.

VOX Transmitting (F + V)

VOX (voice activated operation) only works when an external microphone is used.

1. Press F + V to activate. VOX & a number or OFF will show at right of LCD screen.
2. Rotate the channel control to set VOX sensitivity (1-6) or to turn off (OFF).
3. Press F again to save.

Transmitting and Receiving

1. Never transmit without an antenna as it may damage the transceiver. Never hold the antenna when transmitting.
2. To prevent interference to other stations, listen on the channel first before transmitting. Pressing the Monitor Button can be helpful here, and/or observe the RX indicator either on the screen or indicator light on top panel (green).
3. When ready to transmit, press and hold the PTT switch and speak in a normal voice level.

The TX/RX indicator on the top panel lights red and TX indicator is shown in LCD display. Do not transmit when the radio is charging in the charging dock.

Monitor

The Monitor Button opens the squelch gate to receive any receiveable signals.

Channels

Channels 1-80 UHF are direct CB for CB transmit and receive.

In Australia, except in an emergency, a CB Radio must not be operated on UHF emergency channels 9 & 39.

Channel 11 is the customary

calling channel, and Channel 40 the road vehicle channel.

16 Repeater Channels

Repeater or Duplex channels allow long distance communications if required, in areas that have repeater facilities. These channels are 1 to 5, and 41 - 46.

(when available). Unless specifically needed, use of repeater channels is to be avoided.

Channels 31-35, & 71-75 should also be avoided, as these are repeater input channels and can cause interference with repeaters in the areas where used.

These Repeater Channels have been allocated in the AUSCB Radio to LCD Screen Locations 81-85 and 91-95 and labelled as DUP 1 - 5 and DUP 1 - 45.

For instance DUP 1 indicates Channel 1 Repeater.

Other Features

Lamp Button

Pressing the Lamp Button (under the PTT and Monitor Button) will light up the LCD Screen.

Power On Voltage Indicator

When turning on the radio, the LCD screen will briefly indicate the battery's current voltage.

TOI (Time Out Timer)

TOI is present at 60 seconds.

Please Note

80CH Narrowband CB

All new 80CH CB radios use what is called narrowband, due to its smaller TX bandwidth size. Older 80CH CB radios use wideband. Wideband radios may sound louder and possibly a little muffled on narrowband radios. Narrowband radios will sound quieter on wideband radios. This is to be expected, so adjust radio volume for best sound. Due to the wider bandwidth of these older radios, narrowband radios may experience some interference from them when in close proximity on channels above 47.

Wideband CB radios are being phased out.

Channels 22 and 23 are voice channels. Channels 81, 42

& 83 are also currently transmit locked out.

A list of currently authorised channels can be obtained from the ACMA website in Australia, and MED website in New Zealand.

The citizen band (CB) radio service is covered by the ACMA Radiocommunications (Citizen Band Radio Stations) Class Licence in Australia and in New Zealand by the MED General User Radio Licence. Operation is subject to the conditions contained in these licences.

Land Mobile Service

The AUSCB is an approved UHF & covers 450-520 MHz. These UHF channels will not be programmed into the radio without the proper authority. It can only be programmed by the Distributor or approved agent. CTCSS/DCS is also available by programming only.

Precautions and Warranty

Do not modify this radio. Never operate the transceiver with an ungrounded plug. Turn off radio at a low level of output or full power before disconnecting the antenna. Do not operate near unshielded electrical leading wires in an explosive atmosphere. Avoid contact with open flames. Avoid the use of electrical appliances when scanning. Avoid prolonged exposure of direct sunlight from reflection of surrounding and reduce battery failure rate when in use. Turn off (charging dock) when not in use. Keep the antenna more than 25 cm from any part of the head or body when transmitting.

The AUSCB transceiver is warranted for 12 months warranty from date of purchase or replacement from date of purchase. Batteries and accessories are not covered by the warranty. Removal of the warranty sticker and/or loss of original purchase receipt will void warranty. Warranty does not cover future breakdown, misuse, modification, corrosion or water or liquid damage by dropping, loss of box case, or failure to follow the above listed precautions. We do not accept any additional liability under the terms of consequential loss nor any other additional terms. Should you wish to claim a warranty claim, we will, at our option, either refund your money and take the product back or replace with the product, should claim be approved.
