Resister Bruce Dancis, 2014-02-25 Bruce Dancis arrived at Cornell University in 1965 as a youth who was no stranger to political action. He grew up in a radical household and took part in the 1963 March on Washington as a fifteen-year-old. He became the first student at Cornell to defy the draft by tearing up his draft card and soon became a leader of the draft resistance movement. He also turned down a student deferment and refused induction into the armed services. He was the principal organizer of the first mass draft card burning during the Vietnam War, an activist in the Resistance, a nationwide organization against the draft, and a cofounder and president of the Cornell chapter of Students for a Democratic Society. Dancis spent nineteen months in federal prison in Ashland, Kentucky, for his actions against the draft. In *Resister*, Dancis not only gives readers an insider's account of the antiwar and student protest movements of the sixties but also provides a rare look at the prison experiences of Vietnam-era draft resisters. Intertwining memory, reflection, and history, Dancis offers an engaging firsthand account of some of the era's most iconic events, including the 1963 March on Washington for Jobs and Freedom, the Abbie Hoffman-led hippie invasion of the New York Stock Exchange, the antiwar confrontation at the Pentagon in 1967, and the dangerous controversy that erupted at Cornell in 1969 involving African American students, their SDS allies, and the administration and faculty. Along the way, Dancis also explores the relationship between the topical folk and rock music of the era and the political and cultural rebels who sought to change American society. Cinema of Simulation:

Hyperreal Hollywood in the Long 1990s Randy Laist, 2016-09-22 Hyperreality is an Alice in Wonderland dimension where copies have no originals; simulation is more real than reality, and living dreams undermine the barriers between imagination and objective experience. The most prominent philosopher of the hyperreal, Jean Baudrillard, formulated his concept of hyperreality throughout the 1980s, but it was not until the 1990s that the end of the Cold War, along with the proliferation of new reality-bending technologies, made hyperreality seem to come true. In the lost decade between the fall of the Berlin Wall and 9/11, the nature of reality itself became a source of uncertainty, a psychic condition that has been recognizably recorded by that seismograph of American consciousness: Hollywood cinema. The auteur cinema of the 1970s aimed for gritty realism, and the most prominent feature of Reagan-era cinema was its fantastic unrealism. Clinton-era cinema, however, is characterized by a prevailing mood of hyperrealism communicated in various ways by such benchmark films as *JFK*, *Pulp Fiction*, and *The Matrix*. The hyperreal cinema of the 1990s conceives of the movie screen as neither a window on a preexisting social reality nor as a wormhole into a fantastic dream dimension; escapism, but as an arena in which images and reality exchange masks, blend into one another, and challenge the philosophical premises which differentiate them from one another. *Cinema of Simulation: Hyperreal Hollywood in the Long 1990s* provides a guided tour through the anxieties and fantasies reciprocally social and cinematic which characterize the surreal territory of the hyperreal. **How to Close a**

Making Minimum Wage Helen J. Knowles, 2021-08-05 The US Supreme Court's 1937 decision in *West Coast Hotel v Parrish* upholding the constitutionality of Washington State's minimum wage law for women had monumental consequences for all American workers It also marked a major shift in the Court's response to President Franklin D Roosevelt's New Deal agenda In *Making Minimum Wage* Helen J Knowles tells the human story behind this historic case *West Coast Hotel v Parrish* pitted a Washington State hotel against a chambermaid Elsie Parrish who claimed that she was owed the state's minimum wage The hotel argued that under the concept of freedom of contract the US Constitution allowed it to pay its female workers whatever low wages they were willing to accept Knowles unpacks the legal complexities of the case while telling the litigants' stories Drawing on archival and private materials including the unpublished memoir of Elsie's lawyer C B Conner Knowles exposes the profound courage and resolve of the former chambermaid Her book reveals why Elsie who in her mid thirties was already a grandmother was fired from her job at the Cascadian Hotel in Wenatchee and why she undertook the outsized risk of suing the hotel for back wages Minimum wage laws are not an academic question or even a legal one Elinore Morehouse Herrick the New York director of the National Labor Relations Board said in 1936 Rather they are a human problem A pioneering analysis that illuminates the life stories behind *West Coast Hotel v Parrish* as well as the case's impact

on local state and national levels Making Minimum Wage vividly demonstrates the fundamental truth of Morehouse Herrick s statement
