SAXON MATH[™] 3

The Section Overviews included in this packet expand upon the content of Saxon Math 3 to address the standards specific to the Common Core State Standards for Mathematics. After removing the shrink-wrap, follow these instructions for placement of your new Common Core State Standards Overviews.

Replace the existing Section Overviews in the Teacher's Manual, Volumes 1 and 2, with the corresponding Common Core State Standards Section Overviews for convenient reference throughout the year. The 14 Section Overviews have been customized to include essential understandings that focus on the Common Core State Standards for Mathematics as well as discussion questions that tie the content standards with the Standards for Mathematical Practice.

Although the Common Core State Standards are covered throughout the program, each Section Overview identifies the standards that are the focus of that set of lessons. In addition, the correlation table in each Section Overview indicates where the Common Core State Standards have been met in that lesson set. The back page of the Overview contains a planning guide and additional suggestions for activities for Differentiated Instruction.
