Hazardous Materials Response Handbook L. Charles Smeby, 1997 *Chief Officer* Gene P. Carlson, 1985 *Hazardous Waste Site Operations* Michael F. Waxman, 1996-04-27 A complete guide to OSHA training requirements for hazardous waste cleanup professionals Love Canal Times Beach Bhopal these and other industry related environmental disasters provided the impetus for present day regulations governing cleanup of hazardous waste sites and the health and safety training of workers engaged in these operations This manual addresses the 1986 amendments to Congress's Superfund act

known as SARA and the growth industry in hazardous waste remediation that emerged as a result. Specifically it deals with the OSHA standard 29 CFR 1910.120 that requires all businesses with hazardous waste operations and all remediation contractors to train their staffs on a regular basis stressing training for managers, supervisors, scientists and engineers. Covering all training topics mandated by OSHA's 29 CFR 1910.120, this comprehensive guide conforms point by point to OSHA's 40-hour off-site training requirement for site professionals, managers and supervisors. Includes field-tested practical instructional material based on the author's own successful 40-hour courses at the University of Wisconsin extension program that has trained more than one thousand environmental professionals since 1986. Addresses the entire spectrum of health and safety issues including health risks associated with specific chemicals and safe handling of hazardous materials. Demonstrates the correct use of protective gear and how to follow safe work practices. Discusses the continually changing regulatory and enforcement climate that governs the removal of hazards from waste sites. And much more.
