friendship A lot of us do not understand the science behind our behavior and we are uncertain as to why we have certain feelings toward others we consider just friends There is an evolution at work and many of our desires and nondesires come from these evolutionary traits that we carry as primates Although many men and women would confirm that they have a friend who is from the opposite sex and the relationship is specifically platonic do they truly believe this Or is there something more between them on an emotional level The majority of humans tend to shy away from the honesty buried beneath our subconscious in order to cache our true desires for the opposite sex Are We Just Friends gives a clear indication as to why we do what we do as human primates and provides a clear understanding as to the types of behavior we undertake when faced with the possibility of intimate thoughts toward those we would consider friends on a platonic level Just Friends Dyan Sheldon,2018-02-13 Can chasing the wrong girl lead down the right path Witty as ever best selling author Dyan Sheldon maps the agonizing distance between like and love Josh has never really thought twice about girls before He s usually too busy watching old movies with his friends Sal and Carver petitioning for more vegetarian options in the school cafeteria or flailing in yoga class with his best friend Ramona But when new girl Jena Capistrano walks into school Josh loses his heart faster than he s ever lost his balance on a double downward dog Not that he has any real aspirations of course he knows Jena is completely out of his league And then against all odds they become friends The closer they get the more infatuated Josh becomes and the more he wonders if just maybe Jena might like him back There s only one way to find out But it s not exactly easy to put your heart on the line **Can Men and Women Be Just Friends?** Sabrina
