B Chastain demonstrates that Chilean French relations and French financing were crucial to the project's survival during the Cold War. The Metro's history also illuminates the contested process of implementing neoliberalism and the unexpected continuities of state planning and visions for a rational city that persisted despite free market reforms. Most important, this story shows that the Metro came to symbolize the nation and became a critical site where planners, workers, and urban residents contested Chile's path to modernity.

**The Underground Wealth of Nations** Jeannette Graulau, 2019-01-01  
Silver mining was a capitalist business long before the supposed origin of modern capitalism. Hundreds of years before a sixteenth-century crisis in European agriculture led to the origins of capital investment and finance, the silver mining industry exhibited many of the features of modern capitalism. Silver mines were large-scale businesses that demanded large investments and steady cash flow achieved by spreading that risk through fungible shares and creating legal structures to protect entrepreneurs from financial disaster. Jeannette Graulau argues that mining preceded agriculture as the first true capitalist enterprise of the modern world.

**The Law of Energy Underground** Donald N. Zillman, Aileen McHarg, Lila K. Barrera-Hernández, Adrian J. Bradbrook, 2014  
Many developments in energy production and use involve underground resources. Fracking to capture oil and gas, resources storage of harmful carbon gases, and long-term disposal of waste have large implications for the future. This book provides a clear and insightful overview of the law and policy issues surrounding these new technologies.

**El mundo subterráneo (Artemis Fowl 1)** Eoin Colfer, 2011-01-14  
Qui n es Artemis Fowl De momento sabed que no es un ni o cualquiera y que aunque solo tiene doce años está a punto de arrebatarse el poder al mundo subterráneo. Quieto humano. No sabes con qui n te las vas a tener. Artemis Fowl tiene doce años una mente privilegiada y un plan perfecto: robar el oro de las criaturas mágicas para financiar su pequeño imperio criminal. Lo que todavía no sabe es que los duendes, elfos y hadas del mundo subterráneo poco se parecen a los de los cuentos infantiles. Equipados con la tecnología más puntera y armados hasta los dientes están más que preparados para la lucha. Pero Artemis también.

Underground Mining Methods W. A. Hustrulid, Richard L. Bullock, 2001  
Reflecting the highly international and diverse nature of the industry, a series of mining case studies covers the commodity range from iron ore to diamonds as extracted by operations located in all corners of the world. Industry experts have contributed 77 chapters.

**Underground Protestantism in Sixteenth Century Spain** Frances Luttikhuisen, 2016-12-05  
Frances Luttikhuisen chronicles the arrival, reception, and suppression of Protestant thought in sixteenth-century Spain, referred to at that time as Lutheranism. It opens with several chapters describing the socio-political religious context that prevailed in Spain at the beginning of the sixteenth century and the growing trend to use the vernacular for parts of the Mass, as well as for catechizing the populace. Special attention is given to the forerunners, that is, the early alumbrado, the role of Cardinal Cisneros, and the impact of Erasmus and Juan de Valdés, etc. The use of archival material provides new details regarding the historical framework and the spread of evangelical thought in sixteenth-century Spain. These dispatches and trial records greatly enrich the main body of the work.

which deals with the arrival and confiscation of evangelical literature the attitude of Charles V and Philip II towards religious dissidents and the severe persecution of the underground evangelical circles at Seville and Valladolid Special attention is given to the many women involved in the movement The recurrent mention of the discovery and confiscation of prohibited literature shows how books played an important role in the development of the movements The final chapters focus on the exiles and their contributions the persecution of foreigners and the years up to the abolition of the Inquisition The work concludes with the efforts made in the nineteenth century to rediscover the history of the persecuted sixteenth century Spanish Protestants and their writings
