**At the Edge of Uncertainty** Michael Brooks, 2014-06-26 The atom The Big Bang DNA Natural selection All ideas that have revolutionised science and that were dismissed out of hand when they first appeared The surprises haven't stopped here Michael Brooks bestselling author of 13 Things that Don't Make Sense investigates the new wave of unexpected insights that are shaping the future of scientific discovery Through eleven radical new insights Brooks takes us to the extreme frontiers of what we understand about the world He journeys from the observations that might rewrite our history of the universe through the novel biology behind our will to live and on to the physiological root of consciousness Along the way he examines how the underrepresentation of women in clinical trials means that many of the drugs we use are less effective on women than men and more likely to have adverse effects explores how merging humans with other species might provide a solution to the shortage of organ donors and finds out if there is such a thing as the will to live When we think about science we often think of iron clad facts But today more than ever our unshakeable truths have been shaken apart As Michael Brooks reveals the best science is about open mindedness imagination and a love of mind boggling adventures at the edge of uncertainty

Eureka! New Scientist, 2021-11-11 Introduced by Jim Al Khalili Could you surf down an erupting volcano Why do zebras have stripes Are you breathing the same air as Leonardo da Vinci Are there any green mammals Why do pineapples have spikes Why do songs get stuck in your head What happens when black holes collide Can you extract your DNA New Scientist has been a treasure trove of fascinating and surprising questions and answers for over a decade From how to measure the speed of light using chocolate to why dogs howl at sirens Eureka brings together 365 mindblowing questions fascinating facts and exciting experiments If you've ever wondered how to escape quicksand what would happen if the moon vanished and why cats nearly always land on their feet you've come to the right place
