Re: Brand X, 18.6 cu ft. Bottom Mount Fridge Serial Number 12345

Dear Sir or Madam,

I am writing to seek your help in fixing a problem. On Monday, May 1, 2012 I purchased the above fridge from your Some Street location. John Doe was my sales representative.

As you can see from the attached bill of sale, I had purchased the fridge in stainless steel, which was more expensive than the black model. However, the fridge delivered on May 3rd to our home was black.

I informed the delivery person of the problem, however, he said that he could not help me with this. I called John Doe on May 4th, and he said that we received the right fridge. I indicated that this is not acceptable, and asked to speak to a manager. He said that she was busy at the moment but would phone me back. No one phoned back.

I understand that mistakes do happen, and I look forward to a quick resolution to this situation. Please telephone me to make arrangements for the delivery of the stainless steel fridge we have purchased, and to have the black model removed. If for some reason this fridge is not available, I will accept a full refund.

I have been a customer of ABC Company for many years, and I hope to have this resolved so that I can continue to shop in your store.

Please call me at 555-1234 as soon as possible to make the arrangements.

Sincerely,

Jane Customer

Sample Complaint Letter About Unethical Behavior:

Adjudicating Alleged Unethical Conduct Jane Park Cutler, 1983 **Behavioral Forensics** Douglas Ruben, 2019-11-01

Behavioral Forensics Using Applied Behavior Analysis in Psychological Court Evaluations presents the first compendia on the application of behavioral principles for the assessment and analysis of criminal behavior in court ordered psychological evaluations. The book explains criminal motivation, risk behaviors, custody, criminal responsibility, and competence to stand trial. BFA employs principles and techniques of standard behavioral assessment in deducing causal evidence from interview and psychometric data. Sections cover evidence-based concepts and principles of BFA vs. obsolete forensic evaluation models, also including ten case studies that illustrate BFA in pre and post sentencing evaluations that demonstrate how to determine risk of criminal recidivism or competency. Considering the unprecedented numbers of psychologists turning to forensic work and influx of graduate programs offering degrees in criminal behavior analysis, this book is a timely resource for a variety of readers. Presents the advantages of using Behavioral Forensic Assessment (BFA) over personality theories. Explains criminal motivation, risk behaviors, custody, criminal responsibility, and competence to stand trial from a natural science, behavioral, and interbehavioral perspective. Includes case studies that illustrate BFA in pre-sentencing and post-sentencing evaluations. Offers the most scientific, evidence-based approach to criminal forensic psychological evaluations.

Radical Product Thinking R. Dutt, 2021-09-27. Iteration rules product development, but it isn't enough to produce dramatic results. This book champions Radical Product Thinking, a systematic methodology for building visionary, game-changing products. In the last decade, we've learned to harness the power of iteration to innovate faster; we've invested in a fast car, but our ability to set a clear destination and navigate to it hasn't kept up. When we iterate without a clear vision or strategy, our products become bloated, fragmented, and driven by irrelevant metrics. They catch product diseases that often kill innovation. Radical Product Thinking (RPT) gives organizations a repeatable model for building world-changing products. The key: Being vision-driven instead of iteration-led. R. Dutt guides readers through the five elements of the methodology: vision, strategy, prioritization, execution, and measurement, and culture, to develop a clear process for translating vision into reality and turning RPT skills into muscle memory. This book offers refreshing solutions to the shortcomings of our current model for product development: be prepared to toss out everything you know about a good vision and learn how to

measure progress to create revolutionary products The best part You don t have to be a natural born visionary to produce extraordinary results
