

SCHOOL BOARD SELF-EVALUATION

This evaluation is based on the six dimensions of board competency, a description of successful board practices uncovered during the Trustee Demonstration Project. This five-year study involved trustee boards from more than 20 colleges, schools, and non-profit organizations in the United States. Listed under each of the six major headings are statements describing a variety of related board actions. You will score each action according to how frequently it occurs. At the end of each section, you will tabulate the scores and assign a grade for each of the six dimensions of competency. At the end of the evaluation, you will assign your board an overall grade.
