Setswana Paper 2 Memo:

English Language and Literature Modupe Moyosore Alimi, Mompoloki Mmangaka Bagwasi, Patrick James Ebewo, 2020-11-09 English Language and Literature Cross Cultural Currents is a collection of essays that interrogate the precarious positions of English and African languages in an era in which English is increasingly becoming the dominant language in Africa while at the same time there is a growing resistance against it. Though many Africans take pride in their own cultural heritage that is expressed by their African languages, they require the economic and social benefits of English. The book presents a language dilemma in which both African languages and English enhance, inhibit, and influence each other. The data used by the authors spans a broad spectrum of sources including fiction, courts, parliamentary Hansards, House of Chiefs, classrooms, internet, roads, and bus ranks. Thus, it is reflective of the most and least educated, the most and least influential Africans. The presentations provide broad insights about African symbols, metaphors, imagery, and folklores representing undocumented literature that challenge scientific imperialism and deficit theories. The diversity and freshness of the ideas in the book stem from the unique blend of the background of the contributors: English language and literature teachers, teachers of African languages, educationalists, sociologists, historians, and politicians. Thus, the book is a valuable asset to scholars in linguistics, anthropology, and language policy makers.
