Seven Flowers And How They Shaped Our World:

Seven Flowers Jennifer Potter, 2013-10-03 SHORTLISTED FOR THE GARDEN MEDIA AWARDS INSPIRATIONAL BOOK OF THE YEAR The lotus lily sunflower opium poppy rose tulip and orchid Seven flowers seven stories full of surprise and secrets Where and when did these flowers originate What is the nature of their power and how was it acquired What use has been made of them in gardens literature and art These are both histories and detective stories full of incident unexpected revelations and irony The opium poppy for example returned to haunt its progenitors in the West and while Confucius saw virtue and modesty in his native orchids the ancient Greeks saw only sex These are flowers of life and death of purity and passion of greed envy and virtue of hope and consolation of the beauty that drives men wild All seven demonstrate the enduring ability of flowers to speak metaphorically if we could only decode what they have to say **The Ugly History of Beautiful Things** Katy Kelleher, 2024-04-23 Paris Review columnist Katy Kelleher explores our obsession with gorgeous things unveiling the fraught histories of makeup flowers perfume silk and other beautiful objects The Hidden Language of Symbols Matthew Wilson, 2022-11-03 Why do we reach for the red rose on Valentines day Where did the owl gain its reputation for wisdom Why should you never trust a fox In this visual tour through art history Matthew Wilson pieces together a global visual language enshrined in art the language of symbols Symbols exert a strong hold in the image saturated 21st century and have done so for thousands of years From national emblems to corporate logos and emojis our day to day lives abound with icons with roots in the distant past Expert art historian Matthew Wilson traces the often surprising trajectories that symbols have taken through history from their original purposes to their modern meanings identifying the common themes and ideas that link seemingly disparate cultures Thus we meet the falcon as a symbol of authority from the ancient Egyptian pharaohs to the medieval aristocracy the dog as stalwart companion from the classical era to the Renaissance and the mythical phoenix as a symbol of female power connecting a queen in England with a goddess in China We also see moments of radical reinterpretation and change the transformation of the swastika from an auspicious symbol of hope to one of hate From Palaeolithic cave paintings to contemporary installations Wilson deftly guides us through this world of symbols showcasing their enduring ability to express power hope fear and faith and to create and communicate identities uniting or dividing the people that made them *Toni Morrison and the Natural World* Anissa Janine Wardi, 2021-06-28 Winner of the Toni Morrison Society Book Prize for Best Single Authored Book 2019 2022 Critics have routinely excluded African American literature from ecocritical inquiry despite the fact that the literary tradition has from its inception proved to be steeped in environmental concerns that address elements of the natural world and relate nature to the transatlantic slave trade plantation labor and nationhood Toni Morrison s work is no exception Toni Morrison and the Natural World An Ecology of Color is the first full length ecocritical investigation of the Nobel Laureate s novels and brings to the fore an unequalled engagement between race and nature Morrison s ecological consciousness holds that human geographies

are enmeshed with nonhuman nature It follows then that ecology the branch of biology that studies how people relate to each other and their environment is an apt framework for this book The interrelationships and interactions between individuals and community and between organisms and the biosphere are central to this analysis They highlight that the human and nonhuman are part of a larger ecosystem of interfacing and transformations Toni Morrison and the Natural World is organized by color examining soil brown in The Bluest Eye and Paradise plant life green in Song of Solomon Beloved and Home bodies of water blue in Tar Baby and Love and fire orange in Sula and God Help the Child By providing a racially inflected reading of nature Toni Morrison and the Natural World makes an important contribution to the field of environmental studies and provides a landmark for Morrison scholarship

Ten Materials That Shaped Our World M. Grant Norton, 2021-06-30 This book examines ten materials flint clay iron gold glass cement rubber polyethylene aluminum and silicon explaining how they formed how we discovered them why they have the properties they do and how they have transformed our lives Since the dawn of the Stone Age we have shaped materials to meet our needs and in turn those materials have shaped us The fracturing of flint created sharp curved surfaces that gave our ancestors an evolutionary edge Molding clay and then baking it in the sun produced a means of recording the written word and exemplified human artistic imagination As our ability to control heat improved earthenware became stoneware and eventually porcelain the most prized ceramic of all Iron cast at high temperatures formed the components needed for steam engines locomotives and power looms the tools of the Industrial Revolution Gold has captivated humans for thousands of years and has recently found important uses in biology medicine and nanotechnology Glass shaped into early and imperfect lenses not only revealed the microscopic world of cells and crystals but also allowed us to discover stars and planets beyond those visible with the naked eye Silicon revolutionized the computer propelling us into the Information Age and with it our interconnected social networks the Internet of Things and artificial intelligence Written by a materials scientist this book explores not just why but also how certain materials came to be so fundamental to human society This enlightening study captivates anyone interested in learning more about the history of humankind our ingenuity and the materials that have shaped our world

Strange Bright Blooms Randy Malamud, 2021-09-27 Virginia Woolf famously began one of her greatest novels Mrs Dalloway said she would buy the flowers herself Of course she would why would anyone surrender the best part of the day to someone else Flowers grace our lives at moments of celebration and despair We eat drink sing dance and flirt with them writes Kakuzo Okakura Flowers brighten our homes our parties and our rituals with incomparable notes of natural beauty but the nature in these displays is tamed and conscribed Randy Malamud seeks to understand the transplanted nature of cut flowers of our relationship with them and the careful curation of their very existence It is a picaresque unpredictable ramble through the world of flowers but also the world itself exploring painting murals fashion public art glass flowers pressed flowers flowery church hats weaponized flowers deconstructed flowers flower power and much more

Botanical Architecture Paul

Dobraszczyk,2024-11-12 An original call to reorient architecture around our relationship to plants When we look at trees we see a form of natural architecture and yet we have seemingly always exploited trees to make new buildings of our own Whereas a tree creates its own structure humans generally destroy other things to build with increasingly disastrous consequences In *Botanical Architecture* Paul Dobraszczyk looks closely at how elements of plants seeds roots trunks branches leaves flowers and canopies compare with and constitute human made buildings Given the omnipresence of plant life in and around our structures Dobraszczyk argues that we ought to build as much for plants as for ourselves understanding that our lives are always totally dependent on theirs *Botanical Architecture* offers a provocative and original take on the relationship between ecology and architecture

Monsters under Glass Jane Desmarais,2018-08-15 *Monsters under Glass* explores our enduring fascination with hothouses and exotic blooms from their rise in ancient times through the Victorian vogue for plant collecting to the vegetable monsters of twentieth century science fiction and the movies comics and video games of the present day Our interest in hothouses can be traced back to the Roman emperor Tiberius but it was only in the early nineteenth century that a boom in exotic plant collecting and new glasshouse technologies stimulated the imagination of novelists poets and artists and the hothouse entered the creative language in a highly charged way Decadent writers in England and Europe including Charles Baudelaire and Oscar Wilde transformed the hothouse from a functional object to a powerful metaphor of metropolitan life sexuality and being replete with a dark underside of decay and death and of consciousness itself nurtured and dissected under glass In a study as wide ranging vivid and beautiful as our beloved exotic blooms themselves Jane Desmarais charts the history and influence of these humid tropical worlds and their creations providing a steamy window onto our recent past

Blooming Flowers Kasia Boddy,2020-04-09 An evocative and richly illustrated exploration of flowers and how over the centuries they have given us so much sustenance meaning and pleasure The bright yellow of a marigold and the cheerful red of a geranium the evocative fragrance of a lotus or a saffron infused paella there is no end of reasons to love flowers Ranging through the centuries and across the globe Kasia Boddy looks at the wealth of floral associations that has been passed down in perfumes poems and paintings in the design of buildings clothes and jewelry in songs TV shows and children s names and in nearly every religious social and political ritual Exploring the first daffodils of spring and the last chrysanthemums of autumn this is also a book about seasons In vibrant detail and drawing on a rich array of illustrations Boddy considers how the sunflower poppy rose lily and many others have given rise to meaning value and inspiration throughout history and why they are integral to so many different cultures
