A Taste of Power Katharina Vester, 2015-10-02
A Taste of Power is an investigation of the crucial role culinary texts and practices played in the making of cultural identities and social hierarchies since the founding of the United States Nutritional advice and representations of food and eating including cookbooks literature magazines newspapers still life paintings television shows films and the internet have helped throughout American history to circulate normative claims about citizenship gender performance sexuality class privilege race and ethnicity while promising an increase in cultural capital and social mobility to those who comply with the prescribed norms The study examines culinary writing and practices as forces for the production of social order and at the same time as points of cultural resistance against hegemonic norms especially in shaping dominant ideas of nationalism gender and sexuality suggesting that eating right is a gateway to becoming an American a good citizen an ideal man or a perfect mother Cookbooks as a low prestige literary form became the largely unheralded vehicles for women to participate in nation building before they had access to the vote or public office for middle class authors to assert their class privileges for men to claim superiority over women even in the kitchen and for Lesbian authors to reinscribe themselves into the heteronormative economy of culinary culture The book engages in close reading of a wide variety of sources and genres to uncover the intersections of food politics and privilege in American culture Provided by publisher

Eat My Words Janet Theophano, 2016-01-26 Some people think that a cookbook is just a collection of recipes for dishes that feed the body In Eat My Words Reading Women's Lives through the Cookbooks They Wrote Janet Theophano shows that cookbooks provide food for the mind and the soul as well Looking beyond the ingredients and instructions she shows how women have used cookbooks to assert their individuality develop their minds and structure their lives Beginning in the seventeenth century and moving up through the present day Theophano reads between the lines of recipes for dandelion wine Queen of Puddings and

half pound cake to capture the stories and voices of these remarkable women The selection of books looked at is enticing and wide ranging Theophano begins with seventeenth century English estate housekeeping books that served as both cookbooks and reading primers so that women could educate themselves during long hours in the kitchen She looks at *A Date with a Dish* a classic African American cookbook that reveals the roots of many traditional American dishes and she brings to life a 1950s cookbook written specifically for Americans by a Chinese migr and transcribed into English by her daughter Finally Theophano looks at the contemporary cookbooks of Lynne Rosetto Kaspar Madeleine Kamman and Alice Waters to illustrate the sophistication and political activism present in modern cookbook writing Janet Theophano harvests the rich history of cookbook writing to show how much more can be learned from a recipe than how to make a casserole roast a chicken or bake a cake We discover that women s writings about food reveal and revel in the details of their lives families and the cultures they help to shape

Rebellious Cooks and Recipe Writing in Communist Bulgaria Albena Shkodrova, 2021-01-28 How did people exist and resist in their daily lives under Soviet control in the Cold War period Shkodrova s monograph shows how in communist Bulgaria many women

passionately exchanged recipes with friends and strangers to build substantial and impressive private collections of recipes. This activity was borderline contraband in going against the general disapproval of home cooking that formed part of the ideology of communism in which home cooking was considered household slavery and an agent of patriarchalism. Private recipe collections were by far the preferred written source of culinary information, more popular than the state-approved commercial cookbooks. Shkodrova shows how these recipe collections held many different meanings for the women who collected them, from helping to navigate the communist economy to enabling new friendships to be developed while engaging safely in power relations and cultivating a sense of individual identity in a society where collective existence was prioritised and exalted. Drawing on primary sources including scrapbook cookbooks and working from the establishment of cookery classes before communism and their obliteration thereafter, Shkodrova presents a structured outline of the meanings of recipes, exchange and home cooking for Bulgarian women under communism.

Discovery William Hayashi, 2009-12-04 In the middle 1960s a Black astrophysics student discovers how to control gravity but tells no one. Instead he gathers a small group of his friends together in secret; they build a space craft, travel to the back side of the moon, the side that never shows toward earth, and build an underground colony well before Neil Armstrong shows up. Over the next forty years they secretly bring 2000 additional African Americans to the moon and develop a Utopian society with advanced science and medicine; they are healthier and live longer than their cousins on earth. *Discovery's* story begins in 2001 and tells of the circumstances that lead the United States of America to discover that these African Americans have been living on the moon for nearly half a century and what happens in this country as a result.

Divorcing Mom Melissa Knox, 2019-01-22 Psychoanalysis was her family's religion; instead of wafers and wine, there were Seconals, Nembutals, and gin. Baptized into the faith at fourteen, Melissa Knox endured her analyst's praise of her childlike victimized mother who leaned too close, ate off Melissa's plate, and thought pedophile meant silly person. Gaslighted with the notions that she'd seduced her father, failed to masturbate, and betrayed her mother, Melissa shouldered the blame. Her story of a family pulled into and torn apart by psychoanalysis exposes the abuse inherent in its authoritarianism as Melissa learns with a startling sense of humor and admirable chagrin that divorcing Mom is sometimes the least crazy thing to do.

a fake green card marriage with him But hey I m not complaining Next thing I know we re on a flight to Vegas to make our friends and family think we had a crazy drunken night and in the spur of the moment tied the knot Except that s exactly what happens Thanks a lot vodka Considering that he s the most desirable ballet dancer in New York City and I m a garage dwelling secret blogger with a major sweet tooth there s no way this marriage could ever become real Not to mention my totally crazy family and my aversion to every smell under the sun except his All I can hope for is to not fall in love with my husband That shouldn t be too hard right
