and Shakespeare Robert Sawyer,2017-08-22 Instead of asserting any alleged rivalry between Marlowe and Shakespeare Sawyer examines the literary reception of the two when the writers are placed in tandem during critical discourse or artistic production Focusing on specific examples from the last 400 years the study begins with Robert Greene's comments in 1592 and ends with the post-9/11 and 7/7 era The study not only looks at literary critics and their assessments but also at playwrights such as Aphra Behn novelists such as Anthony Burgess and late twentieth century movie and theatre directors

The work concludes by showing how the most recent outbreak of Marlowe as Shakespeare's ghostwriter accelerates due to a climate of conspiracy including belief echoes which presently permeate our cultural and critical discourse

Collaborative Translation Anthony Cordingley, Céline Frigau Manning, 2016-12-15 For centuries the art of translation has been misconstrued as a solitary affair Yet from Antiquity to the Middle Ages groups of translators comprised of specialists of different languages formed in order to transport texts from one language and culture to another Collaborative Translation uncovers the collaborative practices occluded in Renaissance theorizing of translation to which our individualist notions of translation are indebted Leading translation scholars as well as professional translators have been invited here to detail their experiences of collaborative translation as well as the fruits of their research into this neglected form of translation This volume offers in depth analysis of rich sometimes explosive relationships between authors and their translators Their negotiations of cooperation and control assistance and interference are shown here to shape the translation of prominent modern authors such as Günter Grass Vladimir Nabokov and Haruki Murakami The advent of printing the cultural institutions and the legal and political environment that regulate the production of translated texts have each formalized many of the inherently social and communicative practices of translation Yet this publishing regime has been profoundly disrupted by the technologies that are currently revolutionizing collaborative translation techniques This volume details the impact that this technological and environmental evolution is having upon the translator proliferating sites and communities of collaboration transforming traditional relationships with authors and editors revisers stage directors actors and readers
