It is intended to provide a comprehensive overview of the evolution and state of the art of automated essay scoring and evaluation technology across several disciplines including education testing and measurement, cognitive science, computer science, and computational linguistics. The development of this technology has led to many questions and concerns. Can it improve students' writing? How reliable is the technology? How can these computing methods be used to develop evaluation tools? What are the state-of-the-art essay evaluation technologies and automated scoring systems? Divided into four parts, the first part reviews the teaching of writing and how computers can contribute to it. Part II analyzes actual automated essay scorers including e-rater™, Intellimetric, and the Intelligent Essay Assessor.
