## Not Looking For Love Episode 4 Volume 4:

**The Works of Thomas De Quincey, Part I Vol 4** Grevel Lindop, Barry Symonds, 2024-10-28 Thomas De Quincey 1785-1859 is considered one of the most important English prose writers of the early 19th century. This is the first part of a 21 volume set presenting De Quincey's work, also including previously unpublished material. [The Reception of Classical German Literature in England, 1760-1860, Volume 4](#) John Boening, 2020-02-11 The extensive scope of this collection means that this documentary record of the reception of German literature in England is a valuable scholarly resource. One of the most important features of British literary and intellectual history over the past 250 years is the influence of German literature. From the second half of the 18th Century through the first decades of the 19th, German books and ideas attracted then gained the attention of a nation. Despite the acknowledged importance of the influence on writers such as Coleridge and Carlyle, the subject though often alluded to, was rarely studied. This collection provides a guidebook through the masses of periodical and allows the English side of the Anglo-German literary relationship to be explored in detail. In order to make the collection useful to scholars with a wide range of interest, it has been divided into three parts. Part 1 is a chronological presentation of commentary on German literature in general. It also contains collective reviews of multiple German authors, notices of important anthologies and reactions to influential works about Germany and its culture. Part 2 collects reviews of 18th Century individual German authors, and Part 3 is devoted to the English reception of Goethe and Schiller. Parts 2 & 3 contain cross references to the collective reviews of Part 1. Containing over 200 British serials and articles and reviews from all the major English literary periodicals, the collection also includes a broad sampling of opinion from the more general magazines, including some popular religious publications. *The Bookman*, 1901 *The Consolations of History: Themes of Progress and Potential in Richard Wagner's Gotterdammerung* Alexander Shapiro, 2019-10-16 In this book on Richard Wagner's compelling but enigmatic masterpiece *Gotterdammerung*, the final opera of his monumental Ring tetralogy, Alexander H. Shapiro advances an ambitious new interpretation which uncovers intriguing new facets to the work's profound insights into the human condition. By taking a fresh look at the philosophical and historical influences on Wagner and critically reevaluating the composer's intellectual worldview as revealed in his own prose works, letters, and diary entries, the book challenges a number of conventional views that continue to impede a clear understanding of this work's meaning. The book argues that *Gotterdammerung* and hence the Ring as a whole achieves coherence when interpreted in terms of contemporary nineteenth-century theories of progress and in particular G. W. F. Hegel's philosophies of mind and history. A central target of the book is the article of faith that has come to dominate Wagner scholarship over the years: that Wagner's encounter in 1854 with Arthur Schopenhauer's philosophy conclusively altered the final message of the Ring from one of historical optimism to existential pessimism. The author contends that Schopenhauer's uncompromising denigration of the will and denial of the possibility for human progress find no place in the written text of the Ring or in a plausible reading of

the final musical setting In its place the author discovers in the famous Immolation Scene a celebration of mankind's inexhaustible capacity for self improvement and progress The author makes the further compelling case that this message of progress is communicated not through Siegfried the traditional male hero of the drama but through Brunnhilde the warrior goddess who becomes a mortal woman In her role as a battle tested world historical prophet she is the true revolutionary change agent of Wagner's opera who has the strength and vision to comprehend and thereby shape human history This highly lucid and accessible study is aimed not only at scholars and researchers in the fields of opera studies music and philosophy and music history but also Wagner enthusiasts and readers and students interested in the history and philosophy of the nineteenth century

*Love and Monsters* Miles Booy, 2012-03-29 Scholar and Who fan Miles Booy has written the first historical account of the public interpretation of Doctor Who *Love and Monsters* begins in 1979 with the publication of Doctor Who Weekly the magazine that would start a chain of events that would see creative fans taking control of the merchandise and even of the programme's massively successful twenty first century reboot From the twilight of Tom Baker's years to the newest Doctor Matt Smith Miles Booy explores the shifting meaning of Doctor Who across the years from the Third Doctor's suggestion that we should read the Bible via costumed fans on television up to the 2010 general election in Britain This is also the story of how the ambitious producer John Nathan Turner assigned to the programme in 1979 produced a visually excessive programme for a tele literate fanbase and how this style changed the ways in which Doctor Who could be read The Doctor's world has never been bigger inside or out

Cyrino,2022-01-13 This is the first volume of essays published on the television series Troy Fall of a City BBC One and Netflix 2018 Covering a wide range of engaging topics such as gender race and politics international scholars in the fields of classics history and film studies discuss how the story of Troy has been recreated on screen to suit the expectations of modern audiences The series is commended for the thought provoking way it handles important issues arising from the Trojan War narrative that continue to impact our society today With discussions centered on epic narrative cast and character as well as tragic resonances the contributors tackle gender roles by exploring the innovative ways in which mythological female figures such as Helen Aphrodite and the Amazons are depicted in the series An examination is also made into the concept of the hero and how the series challenges conventional representations of masculinity We encounter a significant investigation of race focusing on the controversial casting of Achilles Patroclus Zeus and other series characters with Black actors Several essays deal with the

moral and ethical complexities surrounding warfare power and politics The significance of costume and production design are also explored throughout the volume

**Darius in the Shadow of Alexander** Pierre Briant, 2015-01-05 A detailed and incisive analysis of the recorded history surrounding the last king of Achaemenid Persia Darius III The last of Cyrus the Great's dynastic inheritors and the legendary enemy of Alexander the Great Darius III ruled over a Persian Empire that stretched from the Mediterranean to the Indus River Yet despite being the most powerful king of his time Darius remains an obscure figure As Pierre Briant explains in the first book ever devoted to the historical memory of Darius III the little that is known of him comes primarily from Greek and Roman sources which often present him in an unflattering light as a decadent Oriental who lacked the masculine virtues of his Western adversaries Influenced by the Alexander Romance as they are even the medieval Persian sources are not free of harsh prejudices against the king Dara whom they deemed deficient in the traditional kingly virtues Ancient Classical accounts construct a man who is in every respect Alexander's opposite feeble minded militarily inept addicted to pleasure and vain When Darius's wife and children are captured by Alexander's forces at the Battle of Issos Darius is ready to ransom his entire kingdom to save them a devoted husband and father perhaps but a weak king While Darius seems doomed to be a footnote in the chronicle of Alexander's conquests in one respect it is Darius who has the last laugh For after Darius's defeat in 331 BCE Alexander is described by historians as becoming ever more like his vanquished opponent a Darius like sybarite prone to unmanly excess Praise for Darius in the Shadow of Alexander Briant is the world's leading authority on the Persian empire that Alexander conquered one of few living scholars with the linguistic mastery to study both the Greco Roman and Persian sources and hence examine the reign of Darius from European and Asian perspectives In the intensely thorough analysis he conducts here he finds reasons to mistrust both traditions and thereby qualify the charge of cowardice that has shadowed Darius for more than two millennia His insights are penetrating and his mastery of the evidentiary record is unsurpassed Having deftly taken down much of the edifice supplied by the ancient accounts of Darius Briant finally turns architect and shows us how the rebuilding might begin James Romm *The Wall Street Journal* Briant's work as always is a significant contribution to Achaemenid studies a display of historiographical learnedness whose methods can benefit historians across ancient studies Jennifer Finn Bryn Mawr Classical Review

**Dying Is Not Death** Lee Hoinacki, 2007-01-01 Dying Is Not Death examines from a traditional humanistic position the act of dying The author views death as a universal experience that can and perhaps should force us to explore various technological intrusions upon it Each chapter is an independent narrative and some chapters tell stories of those struggling to die when confronted with the medical system's technological artifacts Recounting different persons' experiences of death Lee Hoinacki suggests that the medical system's conventional approaches to dying and death can distort our preparation for this most important experience Borrowing from Jacques Ellul and Ivan Illich Hoinacki acknowledges technology as an all embracing system with powerful symbolic effects on the human condition and argues to a conflict between faith and technology Indeed with Ellul he

holds that in order to criticize technology one must find some place outside the technological milieu that would act as a kind of Archimedean lever One must somehow get to the Beyond to judge where one stands in the world History of the George Washington Bicentennial Celebration ...
