

## Important Equations in Physics for IGCSE course

### General Physics:

|    |                                                                                      |                                                                                                                                                                                                      |                                                                                                              |
|----|--------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------|
| 1  | For constant motion:                                                                 | $v = \frac{s}{t}$                                                                                                                                                                                    | 'v' is the velocity in m/s, 's' is the distance or displacement in meters and 't' is the time in sec         |
| 2  | For acceleration 'a'                                                                 | $a = \frac{v - u}{t}$                                                                                                                                                                                | u is the initial velocity, v is the final velocity and t is the time                                         |
| 3  | Graph: in velocity-time graph the area under the graph is the total distance covered | Area of a rectangular shaped graph = base $\times$ height<br>Area of triangular shaped graph = $\frac{1}{2} \times$ base $\times$ height                                                             |                                                                                                              |
| 4  | Weight is the force of gravity and mass is the amount of matter                      | $w = m \times g$                                                                                                                                                                                     | w is the weight in newton (N), m is the mass in kg and g is acceleration due to gravity = $10 \text{ m/s}^2$ |
| 5  | Density 'p' in $\text{kg/m}^3$ (p is the rho)                                        | $\rho = \frac{m}{V}$                                                                                                                                                                                 | m is the mass and V is the volume                                                                            |
| 6  | Force F in newtons (N)                                                               | $F = m \times a$                                                                                                                                                                                     | m is the mass and a is acceleration                                                                          |
| 7  | Terminal Velocity: falling with air resistance                                       | Weight of an object (downward) = air resistance (upwards)<br>implies no net force, therefore no acceleration, constant velocity                                                                      |                                                                                                              |
| 8  | Hooke's Law                                                                          | $F = k \times x$                                                                                                                                                                                     | F is the force, x is the extension in meters and k is the spring constant                                    |
| 9  | Moment of a force in N.m (also turning effect)                                       | $\text{moment of force} = F \times d$                                                                                                                                                                | d is the perpendicular distance from the pivot and F is the force                                            |
| 10 | Law of moment or equilibrium                                                         | Total clockwise moment = total anticlockwise moment<br>$\Rightarrow F_1 \times d_1 = F_2 \times d_2$                                                                                                 |                                                                                                              |
| 11 | Conditions of Equilibrium                                                            | Net force on x-axis = zero, net force on y-axis = zero, net moment = zero                                                                                                                            |                                                                                                              |
| 11 | Work done W joules (J)                                                               | $W = F \times d$                                                                                                                                                                                     | F is the force and d is the distance covered by an object same direction                                     |
| 12 | Kinetic Energy $E_k$ in joules (J)                                                   | $E_k = \frac{1}{2} \times m \times v^2$                                                                                                                                                              | m is the mass (kg) and v is the velocity (m/s)                                                               |
| 13 | Potential Energy $\Delta E_p$ in joules (J)                                          | $\Delta E_p = m \times g \times \Delta h$                                                                                                                                                            | m is mass (kg) and g is gravity and $\Delta h$ is the height from the ground                                 |
| 14 | Law of conservation of energy:                                                       | Loss of $E_p$ = gain of $E_k$<br>$m \times g \times h = \frac{1}{2} \times m \times v^2$                                                                                                             |                                                                                                              |
| 15 | Power in watts (W)                                                                   | $P = \frac{\text{work done}}{\text{time taken}}$<br>$P = \frac{\text{Energy transfer}}{\text{time taken}}$                                                                                           | Power is the rate of doing work or rate of transferring the energy from one form to another                  |
| 16 | Efficiency:                                                                          | $\text{Efficiency} = \frac{\text{useful output}}{\text{total energy input}} \times 100$                                                                                                              |                                                                                                              |
| 17 | Pressure p in pascal (Pa)                                                            | $p = \frac{F}{A}$                                                                                                                                                                                    | F is the force in newton (N) and A is the area in $\text{m}^2$                                               |
| 18 | Pressure p due to liquid                                                             | $p = \rho \times g \times h$                                                                                                                                                                         | p is the density in $\text{kg/m}^3$ , h is the height or depth of liquid in meters and g is the gravity      |
| 19 | Atmospheric pressure                                                                 | $P = 760 \text{ mm Hg} = 76 \text{ cm Hg} = 1.01 \times 10^5 \text{ Pa}$                                                                                                                             |                                                                                                              |
| 20 | Energy source                                                                        | renewable can be reused<br>Hydroelectric eg dam, waterfall<br>Geothermal eg from earth's rock<br>Solar eg with solar cell<br>Wind energy eg wind power station<br>Tidal/wave energy eg tide in ocean | non-renewable cannot be reused<br>Chemical energy eg petrol, gas<br>Nuclear fission eg from uranium          |

# Physics 2014 Igcse Markscheme

**M Tight**

## **Physics 2014 Igcse Markscheme:**

If you ally need such a referred **Physics 2014 Igcse Markscheme** books that will pay for you worth, acquire the certainly best seller from us currently from several preferred authors. If you desire to humorous books, lots of novels, tale, jokes, and more fictions collections are in addition to launched, from best seller to one of the most current released.

You may not be perplexed to enjoy all ebook collections Physics 2014 Igcse Markscheme that we will utterly offer. It is not with reference to the costs. Its approximately what you dependence currently. This Physics 2014 Igcse Markscheme, as one of the most involved sellers here will entirely be accompanied by the best options to review.

## **Table of Contents Physics 2014 Igcse Markscheme**

1. Understanding the eBook Physics 2014 Igcse Markscheme
  - The Rise of Digital Reading Physics 2014 Igcse Markscheme
  - Advantages of eBooks Over Traditional Books
2. Identifying Physics 2014 Igcse Markscheme
  - Exploring Different Genres
  - Considering Fiction vs. Non-Fiction
  - Determining Your Reading Goals
3. Choosing the Right eBook Platform
  - Popular eBook Platforms
  - Features to Look for in an Physics 2014 Igcse Markscheme
  - User-Friendly Interface
4. Exploring eBook Recommendations from Physics 2014 Igcse Markscheme
  - Personalized Recommendations
  - Physics 2014 Igcse Markscheme User Reviews and Ratings
  - Physics 2014 Igcse Markscheme and Bestseller Lists
5. Accessing Physics 2014 Igcse Markscheme Free and Paid eBooks

- 
- Physics 2014 Igcse Markscheme Public Domain eBooks
  - Physics 2014 Igcse Markscheme eBook Subscription Services
  - Physics 2014 Igcse Markscheme Budget-Friendly Options
6. Navigating Physics 2014 Igcse Markscheme eBook Formats
    - ePub, PDF, MOBI, and More
    - Physics 2014 Igcse Markscheme Compatibility with Devices
    - Physics 2014 Igcse Markscheme Enhanced eBook Features
  7. Enhancing Your Reading Experience
    - Adjustable Fonts and Text Sizes of Physics 2014 Igcse Markscheme
    - Highlighting and Note-Taking Physics 2014 Igcse Markscheme
    - Interactive Elements Physics 2014 Igcse Markscheme
  8. Staying Engaged with Physics 2014 Igcse Markscheme
    - Joining Online Reading Communities
    - Participating in Virtual Book Clubs
    - Following Authors and Publishers Physics 2014 Igcse Markscheme
  9. Balancing eBooks and Physical Books Physics 2014 Igcse Markscheme
    - Benefits of a Digital Library
    - Creating a Diverse Reading Collection Physics 2014 Igcse Markscheme
  10. Overcoming Reading Challenges
    - Dealing with Digital Eye Strain
    - Minimizing Distractions
    - Managing Screen Time
  11. Cultivating a Reading Routine Physics 2014 Igcse Markscheme
    - Setting Reading Goals Physics 2014 Igcse Markscheme
    - Carving Out Dedicated Reading Time
  12. Sourcing Reliable Information of Physics 2014 Igcse Markscheme
    - Fact-Checking eBook Content of Physics 2014 Igcse Markscheme
    - Distinguishing Credible Sources
  13. Promoting Lifelong Learning
    - Utilizing eBooks for Skill Development

- Exploring Educational eBooks

#### 14. Embracing eBook Trends

- Integration of Multimedia Elements
- Interactive and Gamified eBooks

### Physics 2014 Igcse Markscheme Introduction

Physics 2014 Igcse Markscheme Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Physics 2014 Igcse Markscheme Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Physics 2014 Igcse Markscheme : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Physics 2014 Igcse Markscheme : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Physics 2014 Igcse Markscheme Offers a diverse range of free eBooks across various genres. Physics 2014 Igcse Markscheme Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Physics 2014 Igcse Markscheme Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Physics 2014 Igcse Markscheme, especially related to Physics 2014 Igcse Markscheme, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Physics 2014 Igcse Markscheme, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Physics 2014 Igcse Markscheme books or magazines might include. Look for these in online stores or libraries.
