Psychology and Christianity, Fourth Edition David N. Entwistle, 2021-11-03 Since the first edition of Integrative Approaches to Psychology and Christianity was published in 2004 this has become the standard textbook on the topic Now in its fully revised fourth edition Dr Entwistle's book elucidates historical philosophical and practical issues in the integration of psychology and Christianity As in previous editions the current text provides an introduction to many of the worldview issues and philosophical foundations that frame the relationship of psychology and theology includes scholarly reflection on the integration literature and surveys six models of possible relationships between psychology and Christianity ranging from those that are completely opposed to either religion or psychology to intermediate models that assert that some limited interaction between them is possible to viewpoints which suggest that a Christian worldview approach can be used to provide a context for exploring areas of overlapping interest between psychology and Christianity The current edition considers recent advances in both Catholic and Protestant thinking on integration including contemporary questions about what evangelicalism is and is not that shape evangelical reactions to the integration debate New content ranges from information about the contrasting views of Tertullian and Augustine to insights from contemporary psychology about factors that adversely affect the quality and reliability of human thinking to how conflict over COVID 19 has entered contemporary religious debate The book is designed to help readers become aware of the presuppositional backdrops that each of us brings to these issues Questions at the end of each chapter are included to help readers evaluate both the material and their own burgeoning approach to integration This book is ideal as a textbook for students of psychology and other behavioral and social sciences social work sociology theology counseling pastoral counseling at both the graduate and undergraduate level It

is also written for the broader readership of psychologists counselors pastors and others who are interested in integration

The CFO Philosophy Jacob Henricson, 2021-03-26 Since they got started in the 1920 s generations of managers have emerged from the business schools worldwide slowly taking over organizations both in the public and in the private sector They are armed with only two objectives 1 define targets and 2 measure progress What gets measured gets done And the rest of us are so caught up in the same thinking that we cannot even see that alternative ways of leading exist This book is about the modern management that makes corporate life dreary and bureaucratic In a time where we should be enjoying the fruits of centuries of marvelous technological advances and spending more time on the good things in life our lives are consumed by bureaucracy like never before Almost nobody likes that but whose fault is it Where does the modern management style come from why do we have it and why does every effort to replace it end up with something that becomes more of the same

The Early Coptic Papacy Stephen J. Davis, 2017-09-12 The Copts adherents of the Egyptian Orthodox Church today represent the largest Christian community in the Middle East and their presiding bishops have been accorded the title of pope since the third century AD This study analyzes the development of the Egyptian papacy from its origins to the rise of Islam How did the papal office in Egypt evolve as a social and religious institution during the first six and a half centuries AD How do the developments in the Alexandrian patriarchate reflect larger developments in the Egyptian church as a whole in its structures of authority and lines of communication as well as in its social and religious practices In addressing such questions Stephen J Davis examines a wide range of evidence letters sermons theological treatises and church histories as well as art artifacts and archaeological remains to discover what the patriarchs did as leaders how their leadership was represented in public discourses and how those representations definitively shaped Egyptian Christian identity in late antiquity The Early Coptic Papacy is Volume 1 of The Popes of Egypt A History of the Coptic Church and Its Patriarchs Also available Volume 2 The Coptic Papacy in Islamic Egypt 641 1517 Mark N Swanson and Volume 3 The Emergence of the Modern Coptic Papacy Magdi Girgis Nelly van Doorn Harder *Alfred Loisy and Modern Biblical Studies* Jeffrey L. Morrow, 2018-11-21 The French Catholic priest and biblical scholar Alfred Loisy 1857 1940 was at the heart of the Roman Catholic Modernist crisis in the early part of the twentieth century He saw much of his work as an attempt to bring John Henry Newman s notion of development of doctrine into the realm of Catholic biblical studies and thereby transform Catholic theology This volume situates Loisy s better known works on the New Testament and theology in the context of his lesser known work in Assyriology and Old Testament studies His early training in Assyriology taught Loisy a comparative historical approach to studying ancient texts in addition to providing him the requisite training in ancient Near Eastern languages and literature Loisy built upon this Assyriological foundation with his historical critical work in biblical studies first in the Old Testament In his biblical scholarship Loisy combined the then current trends of historical biblical criticism with his more comparative approach Prior to his excommunication in 1908 Loisy attempted in his more popular writings to

defend the inclusion of historical biblical criticism in the repertoire of Catholic biblical interpretation He saw this as an important step in reforming Catholic theology The Modernist crisis set the stage for the major debates that would occur in the Catholic theological world for more than a century The controversy over Modernism became one important conflict that helped pave the way for the Second Vatican Council The issues raised during Loisy's time remain contested today Examining how Loisy approached biblical studies helps readers better understand his overall work and the place it played in the pivotal intellectual turmoil of his day **Papal Teaching in the Age of Infallibility, 1870 to the Present** Kevin T.

Keating, 2018-06-29 Kevin Keating examines the major writings of the Roman Pontiffs from Pius IX in the last half of the nineteenth century to the most recent writings of Francis He explores the shift in papal focus from internal church matters and attacks on modern thought to concern for matters affecting all of humanity not just spiritually but socially politically and economically as well Looming over all of these teachings is the specter of the doctrine of infallibility First defined in 1870 to cover only papal infallibility it would be expanded in the 1960s to include the exercise of infallibility by the worldwide college of bishops Keating discusses the most significant themes dealt with by popes during this period the Bible religious freedom church state relations social doctrine human sexuality ecumenism and interreligious dialogue He describes how papal teaching has changed developed and even been contradicted by later popes although they have failed to expressly acknowledge departures from prior teaching He details how the doctrine of infallibility far from serving to bolster the credibility of papal teaching often has served to undermine it **Roman but Not Catholic** Jerry L. Walls, Kenneth J.

Collins, 2017-10-17 This book offers a clearly written informative and fair critique of Roman Catholicism in defense of the catholic faith Two leading evangelical thinkers in church history and philosophy summarize the major points of contention between Protestants and Catholics honestly acknowledging real differences while conveying mutual respect and charity The authors address key historical theological and philosophical issues as they consider what remains at stake five hundred years after the Reformation They also present a hopeful way forward for future ecumenical relations showing how Protestants and Catholics can participate in a common witness to the world
