GRAPHIC FACILITATION AND ART THERAPY Michelle Winkel, Maxine Borowsky Junge, 2012-04-01 Graphic Facilitation is an innovative and wholly new application of art therapy theory and techniques to groups and organizations. Graphic Facilitation is a process in which a trained consultant through color symbols and metaphors in murals interprets and documents something as short as a keynote address or as long as an entire conference. The text provides a new and exciting avenue for art therapists and for organizational development consultants. The authors provide a detailed explanation of Graphic Facilitation, what it is, how and why it works, ideas about how to become a trained Graphic Facilitator, and a multidisciplinary literature base and resources that aspiring Graphic Facilitators will need. The book's references and bibliography include pertinent classic organizational development literature, essential learning for work in the area. Five case studies carefully lay out how the Graphic Facilitation process works in practice with a variety of organizational styles, models, and issues. They include visual murals and other imagery created by the Graphic Facilitator for each organizational event. These case studies clearly illustrate the value and promise of art therapy as an exciting new tool and provide a view of the impressive use of Graphic Facilitation. Written by two art therapists, this book is for art therapists who would like to develop and learn to use art therapy applications for business and organizational sectors. In this, it is an exciting new practice area for art therapists. The book will also be valuable for business coaches, human resource managers, organizational management consultants, and facilitators who would like to enrich their practice with Graphic Facilitation techniques. CD ROM not included in digital version of this title.

Social Entrepreneurship in Art Therapy Jennifer Marie DeLucia, 2025-09-19 This book explores social entrepreneurship in art therapy through case studies presented by contributing authors, highlighting the work of art therapists who have used innovative and collaborative approaches to increase access to art therapy services and promote system-level changes within the communities and institutions where they practice. As creative changemakers, art therapists are often developing innovative solutions to address social problems impacting the communities they serve. This book reveals practical aspects of these initiatives by offering strategies, skills, and practice-based examples. By addressing issues related to equity, inclusion, and access through innovative programming, grassroots advocacy, and policy development, the authors demonstrate how their entrepreneurial initiatives in art therapy produce social impact. Practitioners in art therapy and allied mental health professions will be inspired to seek and embrace opportunities for innovation.
